UN Global Compact Communication on Progress - Dulas

Date 26th August 2017

Statement

To our stakeholders

I am pleased to confirm that Dulas continues to support the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

Our core business is the delivery of renewable energy solutions to help people and the planet; this means our values and activities embrace the three environmental principles. We are continually encouraging the diffusion of renewable energy technologies in areas of the world with poor power supplies particularly for the use of primary healthcare.

Human rights have also always been at the heart of our business and our founding principles exclude manufacturing arms or arms related products.

Labour rights and responsible management are vital to our operations and values. We are employee owned, with equal shares for all, and with no external shareholders.

We are anti-corruption and our activities are undertaken through transparent bidding processes.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

Our current strategic review is using the Sustainable Development Goals as key to the context of our operations. In response to one key area of concern, given our global operations, the Board of Directors has recently approved a strengthened anti-bribery policy that is being implemented across the company.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read "Phil Horton", with a stylized flourish at the end.

Phil Horton

Managing Director, Dulas
