Amersfoort, August, 2017

Dear Mr. Secretary-General,

To all stakeholders,

With this statement we inform you that Koninklijke VolkerWessels N.V. supports the ten principles of the United Nations Global Compact concerning human rights, labour, environment and anti-corruption.

Koninklijke VolkerWessels N.V. has the ambition to set up her activities in such a way that they contribute to the quality of life of people. In order to achieve this, we work together with all our stakeholders. We pay special attention to the end users of the built environment to which we are contributing every day. In executing our activities, our core values safety, sustainability and integrity are leading.

We are aware that we continuously need to take responsibility in relation to people, health and environment, both within our own organisation, and in our projects. This is evidenced by our policy on material use, on promoting and retention of employment, on reduction of greenhouse gasses and on promotion of integrity and safety, within our sphere of influence. In order to build towards a better quality of life, a safe, circular and energy efficient process is a basic precondition for us.

Yours sincerely,  
Board of Directors Koninklijke VolkerWessels N.V.

J.A. de Ruiter  
H.J. van der Kamp
