I. Implementing the ten principles into strategies and operations

Criterion 1 : The COP describes mainstreaming into corporate functions and business units.

<p>In May 2016, the Group updated its environmental and social responsibility policy to align it with the Group's policies in various areas (including the environment, HR, ethics and procurement, ...).</p>	<p>http://www.engie.com/wp-content/uploads/2016/06/esr-policy-31-05-2016-va.pdf</p>
<p>Environmental and social responsibility is governed at the very highest level within ENGIE Group: by the Board of Directors' Ethics, Environment and Sustainable Development Committee, the Group's Management Committee, and the Environmental and Social Responsibility Executive Committee.</p> <p>The Group Executive Committee (COMEX) devotes two meetings per year, totally dedicated to Environmental and Social Responsibility.</p>	<p>2017 Integrated Report page 41, page 16: http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=42&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>2016 Registration Document page 119 : http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=120&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>http://www.engie.com/en/analysts/governance-and-ethics/eesdc/</p>
<p>The Environmental and Social Responsibility Executive Committee implements the environmental and social responsibility policy, ensures that Corporate and the Group's various Business Units share and build on their experiences, and manages exchanges on environmental and social responsibility strategies.</p> <p>The Committee meets on a monthly basis under the chairmanship of the Group Environmental and Social Responsibility Director and is made up of:</p> <ul style="list-style-type: none"> - the Business Unit Environmental and Societal Responsibility managers (one in each BU, member of the Management Committee of the Business Unit) - members of the Corporate Environmental and Societal Responsibility Division 	<p>2017 Integrated Report page 16: http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=18&adf3-lang=en&9557-source=xmlConfs/init.xml</p>
<p>In May 2014, ENGIE issued a green bond for a total amount of €2.5 billion. The funds raised helped finance the Group's development of renewable energy and energy efficiency projects. Eligible projects were selected on the basis of a number of environmental and social criteria established in partnership with the agency Vigeo.</p>	<p>2017 Integrated Report page 29: http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=30&adf3-lang=en&9557-source=xmlConfs/init.xml</p>

<p>In 2016, the totality of the funds were allocated to eligible projects and it helped to finance 77 projects in the fields of renewable energy and energy efficiency.</p> <p>In March 2017, the Group issued its new Green Bond of €1,5 billion. To be eligible, projects financed must meet a number of environmental and social criteria in eight areas : fight against climate change and the conservation of the natural resources, environmental management, biodiversity, dialogue with stakeholders, business ethics, human rights, responsible procurement and health and safety. These criteria were developed by ENGIE, reviewed by Vigeo Eiris and are published on ENGIE website.</p> <p>Bond issue proceeds will be allocated according to a specific traceability procedure that will be verified by an external audit firm. In the spirit of continuous improvement and contribution to best practices, the Group took on the occasion of this Green Bond as an opportunity to further commit on the reporting and the transparency of the allocation process.</p>	<p>http://www.engie.com/en/csr-experts-area/2017-green-bond/</p>
---	--

<p>The Group applies ten non-financial criteria relating to ethics, CO₂ emissions, social impact, human resources, environmental management of ecosystems, stakeholder involvement, local purchasing and health and safety to all of its investment projects. Furthermore, the Group takes account of the CO₂ cost of its investments. These criteria are presented, analyzed and evaluated for each new investment project in excess of \$ 50 million.</p>	<p>https://www.gdfsuez.com/wp-content/uploads/2014/03/gdf-suez-environmental-and-societal-responsibility-policy-january-2014.pdf (p.34)</p>

Criterion 2 : COP describes value chain implementation

<p>ENGIE's Purchasing and Procurement Policy outlines the principles that apply to managing supplier relations in accordance with the Group's commitments to ethical behaviour and social responsibility, particularly with regard to diversity and disability. The policy is driven by three core objectives: contributing to ENGIE's performance, acting as a model for creating synergies within the Group, and being an ambassador for the company's values in dealings with suppliers by encouraging them to sign up to the UN Global Compact, among other things.</p>	<p>Cf ENGIE procurement policy updated in May 2016 : http://www.engie.com/wp-content/uploads/2016/05/procurement-policy-engie.pdf/</p> <p>2017 Integrated Report pages 33-34 : http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&9557-source=xmlConfs/init.xml&adf3-lang=en&ccb3-pageId=34</p> <p>Cf Annexe 4 of ESR policy http://www.engie.com/wp-content/uploads/2016/06/esr-policy-31-05-2016-va.pdf http://www.engie.com/en/commitments/procurement/</p>

<p>ENGIE has adopted ACESIA, a platform for evaluating suppliers' CSR performance. The tool, which was developed by AFNOR Solutions Achats, analyses suppliers' responses to 25 environmental and 13 social indicators. The data are used for purposes such as monitoring suppliers' compliance with legislation and fulfilling the Group's obligations to be vigilant, notably for issues such as illegal work, waste management and transport. As well as highlighting best practices, ACESIA also fosters innovation by encouraging suppliers to commit to a specific action plan, which it generates automatically based on their responses to the indicators. Moreover, hundreds of suppliers of the Group completed a self-assessment CSR questionnaire, this approach has been extended to 500 suppliers in 2016.</p>	<p>http://www.engie.com/en/analysts/actions/principle-2-acting-responsibly/responsible-purchasing/</p>
<p>An online training programme targeting all of ENGIE's sales teams has been launched to explain what 'responsible purchasing' means, help users find out more about ENGIE's efforts in the field and identify the best way of making a contribution to the Group's commitments. The programme's modules define a range of concepts including sustainable development, corporate social responsibility (CSR) and responsible purchasing, detail the Group's activities in the field and explain how to integrate CSR into every stage of the procurement process, whilst taking account of statements of need, the life-cycle approach and labels. Last but not least, the training programme addresses disability issues and relations with companies from the 'adapted and protected' sector. In 2015, more than 400 buyers attended the training on sustainable procurement.</p>	<p>http://www.engie.com/en/analysts/actions/principle-2-acting-responsibly/responsible-purchasing/</p>
<p>ENGIE has set up a supplier portal that enables innovative SMEs to publicise themselves and get included in ENGIE's supplier pool.</p>	<p>http://www.engie.com/en/commitments/procurement/relationships-with-smes/</p>

**Implementing the ten principles into strategies and operations :
 Reliable policies and procedures concerning human rights
 Human rights:**

- Principle 1 : Businesses should support and respect the protection of internationally proclaimed human rights
- Principle 2 : Businesses should make sure that they are not complicit in human rights abuses

Criterion 3 : The COP describes robust commitments, strategies or policies in the area of human rights

<p>The Group's commitment to human rights is shown in its ethical principles. This commitment is presented in the Ethics charter and the Practical guide to ethics. The "Human Rights Referential: commitments and implementation" is its ethical policy dedicated to human rights.</p> <p>The Human Rights Referential was adopted in May 2014. It complements the Group's existing actions related to the respect for human rights. Its aims to establish a global due diligence process, as required by international frameworks.</p>	<p>2017 Integrated Report - "Ethical principles applicable in all circumstances" (p.46) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pagelid=48&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>2016 Registration Document - "3.1.4 Reference texts" (p.59) http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pagelid=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>Ethics charter http://library.engie.com/uid_bf06d0f9-89de-4f27-b8f6-b08f5bf9d4ce/</p> <p>Practical guide to ethics http://library.engie.com/uid_204082eb-b4f4-4070-a387-fe759559aaf2/</p>
<p>The Referential explains Group's commitments; the first one is to "respect all internationally recognized human rights", as defined by international treaties.</p> <p>It then specifies commitments regarding rights of employees and of local communities.</p>	<p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/human-rights-referential/</p>
<p>Referential was signed in 2014 by the then Chairman & CEO and has been approved by the Group Management Committee.</p> <p>All employees are expected to apply the Referential. It also asks Group's business relationships to respect its own commitments, through a contractual provision.</p> <p>Since October 2016, a e-learning module "Business and Human Rights" is available to all Group employees to present them the Group's approach and commitments regarding human rights.</p>	<p>2016 Registration Document -"3.1.6 Training and awareness" (p.59) http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pagelid=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/training/</p>

<p>This Referential is public and freely available on the Group's website. It was communicated to all senior executives and to all ethics and compliance officers who are in charge of its distribution and implementation.</p> <p>This Referential is the result of a broad consultation with operational entities and support functions. It complements specific human rights policies (as health & safety or responsible procurement) and aims to promote a proactive and global human rights approach.</p> <p>It is based on the United Nations Guiding Principles on business and human rights recommendations.</p>	<p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/human-rights-referential/</p>
<p>The Group is a founding member of the association EDH ("companies for human rights"). EDH aims to improve integration of human rights into companies' policies and practices, especially by the operational implementation of the UN Guiding Principles.</p>	<p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/references-and-memberships/</p> <p>EDH website www.e-dh.org</p>
<p>ENGIE is also a founding member of Bettercoal, a worldwide initiative aiming to promote continuous improvement of responsibility in the international coal supply chain, in particular regarding ethics, social and environmental responsibility and human rights.</p>	<p>www.bettercoal.org</p>

Criterion 4 : La COP describes effective management systems to integrate the human rights principles

<p>The Human Rights Referential provides for the implementation of operational processes to ensure effective implementation of the Group's commitments. It asks for a due diligence approach by systematic human rights risks assessment.</p>	<p>2017 Integrated Report - "A structured reference framework" (p.47) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=48&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>2016 Registration Document - "3.1.4 Reference texts" (p.59) http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/human-rights-referential/</p>
<p>Human rights are specifically identified as a Group ethical risk and so are assessed annually. Human rights are also screened in country risk assessments. These risks are presented to the Ethics, Environment and Sustainable Development Committee of ENGIE's Board of Directors.</p>	<p>2017 Integrated Report - "Investments and major contracts subject to due diligence" (p.47) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=48&adf3-lang=en&9557-source=xmlConfs/init.xml</p>

<p>Human rights are incorporated in the analysis of the major capital investment projects, presented in Commitments Committee.</p>	<p>2017 Integrated Report -“4 Committees chaired by Independent Directors” (p.41) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=42&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>2016 Registration document -“3.1.3. Risk assessment” (p.58) http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/ethics-risks-analysis/</p>
<p>At the operational level, annual human rights risks assessments are conducted by entities and reported through the global risk-management (ERM) system.</p> <p>New projects of the entities are also evaluated according to human rights criteria. An in-depth analysis is required for “at risk” countries.</p> <p>Methodological tools customized to the Group’s activities accompany the Human Rights Referential.</p> <p>In the form of checklists, they aim to support managers for the risks analysis required. These tools are deployed with the referential since 2014.</p>	<p>2017 Integrated Report -“Investments and major contracts subject to due diligence” (p.47) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=48&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>2016 Registration Document - “3.1.4. <p>The Human Rights Referential provides explicitly the integration in contracts of the requirement for suppliers, service providers, subcontractors and partners to respect the Group Human Rights commitments.</p> <p>This commitment completes existing actions of a responsible purchasing policy, in particular the <u>Code of conduct in supplier relations</u>: integration of ethical criteria in procurement processes, ethics, environmental and societal responsibility clause on the general conditions of purchase, “Ethics and supplier relations” training (implemented since December 2016, instead of the former “Ethics and purchasing” training, constructed in cooperation between the Ethics & Compliance Department and the Procurement Department and proposed since 2014).</p>	<p>engie.com internet website http://www.engie.com/en/commitments/procurement/procurement-policy/ethics-social-responsibility/</p>
<p>Training on human rights is available for all employees, either internally (new e-learning on human rights since October 2016), or through the association EDH (“Companies for Human Rights”: one-day classroom training).</p>	<p>2016 Registration Document -‘3.1.6. Training and awareness’ (p.59)</p>

<p>The Referential is fully integrated into the Group Ethics approach, overseen at the highest corporate level by the Ethics, Environment and Sustainable Development Committee of ENGIE's Board of Directors.</p> <p>Within the General Secretary, the Ethics & Compliance department coordinates the implementation, with the support of a global network of more than 250 persons.</p> <p>Managers and ethics and compliance officers must ensure that the conditions for its implementation in their entities are met.</p>	<p>2016 Registration Document - "3.1.2. Organization and structure" (p.58)</p> <p>http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>engie.com internet website</p> <p>http://www.engie.com/en/group/ethics-compliance/main-parties-involved-in-ethics/</p>

Criterion 5 : The COP describes effective monitoring and evaluation mechanisms of human rights integration.

<p>The monitoring of the Referential is included on the ethics & compliance processes of the Group : internal control system, audits, etc.</p> <p>Specific checkpoints in the development and implementation of the Referential were integrated in 2014 to the Group's internal control system.</p>	<p>2016 Registration Document -“3.1.7. Control system” (p.59) http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/control-system-ethics/</p>
<p>The Referential falls within the scope of the annual compliance procedure: the ethics and compliance officers prepare a report on the progress in ethical organization made by their respective entities, submitting this, together with a compliance letter from the entity's manager, to the Group CEO via the BU ethics and compliance officers. Based on these reports, the ENGIE annual compliance report is prepared and presented to the Ethics, Environment and Sustainable Development Committee of ENGIE's Board of Directors.</p> <p>Since 2015 indicators on the implementation of this Referential have been integrated in the annual compliance report</p>	<p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/ethical-compliance-referential/</p>
<p>The internal ethics incidents reporting procedure includes explicitly human rights incidents.</p>	<p>2016 Registration Document -“3.1.5. Whistleblowing and reporting of ethics incidents” (p.59) http://library.engie.com/uid_eaf1a783-f247-42f7-b7a2-ea48876a6b06/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=60&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>engie.com internet website http://www.engie.com/en/group/ethics-compliance/ethical-compliance-referential/</p>
<p>ENGIE maintains constant and proactive dialogue with its stakeholders, through dedicated operational mechanisms for dialogue and consultation and by its participation to voluntary initiatives.</p>	<p>2017 Integrated Report -“2. Engaging with our stakeholders” (p.9) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pageld=10&adf3-lang=en&9557-source=xmlConfs/init.xml</p>
<p>Operational grievance mechanisms are implemented and are available for anyone who feels affected by the activities of the Group.</p> <p>At the corporate level, stakeholders have access to the ethics mail or the Mediator of the Group.</p>	<p>2016 Registration Document -“3.1.5. Implementing the ten principles into strategies and operations : Reliable policies and procedures concerning labour standards

Labour :

- Principle 3 : Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining
- Principle 4 : Businesses should uphold the elimination of all forms of forced and compulsory labour
- Principle 5 : Businesses should uphold the effective abolition of child labour
- Principle 6 : Businesses should uphold the elimination of discrimination in respect of employment and occupation

Criterion 6 : The COP describes robust commitments, strategies or policies in the area of labour

<p>The Group's health and safety policy is drawn up with input from managers and employees and is based on a Group agreement with the trade union federations. It aims to safeguard the integrity of people (be they employees, service providers or third parties) and goods and promote quality of life at work. It is supplemented by the Group Rules on Health and Safety, which set down requirements applying to all entities. The action plan "zero fatalities" launched in 2012 was continued and intensified in 2016</p>	<p>http://www.engie.com/en/analysts/actions/principle-2-acting-responsibly/health-and-safety/</p>
<p>The Group has set a new goal for 2020 an internal occupational accident frequency rate of lower or equal to 3</p> <p>A managerial system comprising a 2016-2020 action plan, training courses, internal controls and audits, certifications, benchmarks and feedback, ENGIE has succeeded in reducing the frequency of occupational accidents involving its employees (down 56% since 2008 and down 3% compared with 2015). Implementing the ten principles into strategies and operations : Reliable policies and procedures concerning the fight against corruption

Anti-corruption :

- Principle 10 : Businesses should work against corruption in all its forms, including extortion and bribery.

Criterion 12 : The COP describes robust commitments, strategies or policies in the area of anti-corruption

<p>ENGIE's ethical goal is to act, in all circumstances, in accordance with the Group's values and commitments and in compliance with laws and regulations.</p> <p>In terms of prevention of corruption, the ENGIE's ethics policy aims to develop an integrity culture and an ethics practice based on 4 principles, among which "Behave honestly and promote a culture of integrity". To support Group employees and entities in the strengthening of this culture of integrity,, the ENGIE Ethics charter defines the 4 Group ethics principles, and the Integrity Referential specifies the Group organization to manage the risks of integrity breaches and sets out the action plan for the prevention of fraud and corruption.</p> <p>ENGIE has reiterated its commitment to ethics by signing, in 2011, the global agreement on fundamental rights, social dialogue and sustainable development which applies to all the Group's entities and reaffirms its culture of integrity, trust and honesty and the principle of zero tolerance towards fraud and corruption within the Group and in respect of external parties.</p> <p>The zero tolerance message was reiterated in 2016 by Isabelle KOCHER, CEO of ENGIE on several occasions (in April 2016 at the 2016 Group Ethics & Compliance Convention and in December 2016 when the Ethics charter and <u>Practical guide to ethics</u> were updated):</p> <p>«We have a very clear policy : zero tolerance, particularly regarding fraud and corruption, and complete commitment to compliance with ethical rules – those of the countries in which we operate and those we set for ourselves.</p> <p>Although our Group draws strength from its operational excellence, it is also recognized by all of its partners and customers for its very high level of reliability and responsibility. It is therefore down to each and every one of us to live up to the trust that is placed on us, by making ethics an absolute priority every day.”</p> <p>Isabelle KOCHER, CEO, November 2016, introduction of ENGIE Ethics Charter</p>	<p>2017 Integrated Report - “An ambitious, long-term commitment in support to ethics” (p.46/47) http://library.engie.com/uid_9b091935-66a4-48c6-9bdc-54982f2600b0/beevirtua/beevirtua.html#app=3d20&ccb3-pagelid=10&adf3-lang=en&9557-source=xmlConfs/init.xml</p> <p>2016 Registration Document -“3.1.1.
