Seville, September 20, 2017

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to in the company we are focusing our efforts in a strategic change, that affects our processes and therefore, these months are key for the development of the project. Once this stage is over, the achievement data for the objectives and evolution will be more representative of our activity in the last year.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by January 11, at the latest.

Sincerely yours,

Javier Landero Cruz
Deputy CEO
