### President's message

I am pleased to confirm that with this seventh Communication on Progress that Xpera Risk Mitigation & Investigation (formerly CKR Global) reaffirms its support of and commitment to the initiative and guiding principles of the United Nations Global Compact in the areas of human rights, labour, environment, and anti-corruption.

Xpera remains committed to conducting all its business in a responsible manner, consistent with national and international standards and norms in all parts of the world that we operate in.

We take our broad obligations (social, environmental, economic) as a responsible corporate citizen very seriously and devote significant non-commercial activities to reflect these values and our commitment to them both here in Canada and in our overseas projects.

Xpera is founded on the excellence of our people, their shared commitment to doing the right thing, and the excellence in our diversity of services – all of which are focused on mitigating risk and enhancing human safety and security in our work both nationally and internationally.

Respectfully,

Len Copp  
President
