Dear Stakeholders,

1<sup>st</sup> December 2017

We directors of Goldfin Investments Management Limited recognize the importance and it's a key requirements of communication in progress which is vital in maintaining the relationship .The annual report on our company progress and the CEO statement is important as it shows the company is willing to share it endeavors with its stakeholders and members of the UN Global Compact.

We had a quite an eventful year with the political atmosphere not so rosy after the August General elections we had to adjust and business went to a down low. We are late in submitting our COP due there is some vital information on the progress of our marketing team which we have to compile in full so that we share.

We hereby request for an extension .We intend to submit our COP on the website on 25<sup>th</sup> Feb 2018 that's we shall have compiled and share our efforts, progress and commitment which is line with implementation of the sustainable development goals.

Yours Sincerely,

Martha W Maina

Director
