We admit that key requirement for participation in the UN Global Compact is preparation and placement of CSR report including statement of General Director about unwavering support of the UN Global Compact and total description of company activities and predicted results.

Unfortunately, we are late with publication of our CSR report because of technical problems and we kindly ask you to prolong the placing term. At the earliest date our company will provide the CSR report which reflects adherence to the principles of UN Global Compact fully. CSR report of our company will be published in February 2018.

Best regards,

Acting General Director

V.V.Starkov
