Communication on Engagement (COE) Report : Grace letter

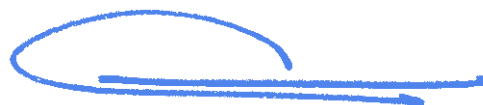

To the UN Global Compact Reporting Teams,

We recognize that a key requirement for participation in the UN Global Compact is the preparation and posting of our Communication on Progress (COP) report with the latest outcomes and projects relating to our social responsibility towards our stakeholders and the society in general.

We would like to ask for an extension period in order to best be able to post a COP that describes our School's efforts and progress in alignment with the Sustainable Development Goals that have been defined as the "2030 Agenda for Sustainable Development".

We consider submitting our report by beginning of May 2018 at the latest and we hope that this deadline is acceptable to you.

Best regards,

Jérôme Rive
Dean
