We will keep working on the development of the micro, small and medium enterprises in Latin America aiming at an anual impact of 40k MSMEs per year.

We will do so as we work with large corporations, governments and development organizations, demonstrating the benefits that working with MSMEs has for business communities and jobs, and working on at least a hundred projects per year.

We will proactively seek to communicate through media and social networks, the work we do and the impact we are having. We will seek to organize at least 6 seminars per year to communicate this.

We will create networks of MSMEs across the region to further increase our impact.
