

Bogotá, D.C., February 22, 2018

To our stakeholders:

We are committed in our participation to the UN Global Compact, thus the annual preparation and presentation of the Communication on Progress (COP) and advances in the Sustainable Development Goals (SDG). Since the concept of SDG is relatively new to our COP report we are trying our best to present the information on these goals that we have established for our organization.

We hereby ask for an extension period in order to be able to post a COP that describes our company efforts in being updated to implement the principles of the UN Global Compact and the Sustainable Development Goals. Our new COP report will be posted on the UN Global Compact website in 90 days at the latest.
