Subject: Global Compact letter of ongoing commitment

Dear Mr. Secretary-General,

I am pleased to reaffirm that both I myself and Safran continue to support the ten principles of the United Nations Global Compact, regarding human rights, labor, the environment and anti-corruption.

This commitment expresses our will to advance those principles within our sphere of influence and implement them as part of our strategy, our operations and our corporate culture. We are convinced of the need for making a collective effort towards advancing the goals of the United Nations, particularly the Millennium Development Goals, and sharing them with our staff, clients and partners.

We also recognize that a key requirement for participation in the United Nations Global Compact is the annual submission of a Communication on Progress (COP), which promotes accountability and transparency by publically describing what we have done to implement the ten principles of the Global Compact, and the results. Our COP is included in our annual registration document.

Very respectfully yours,

Philippe Petitcolin
CEO of Safran
