## COMMUNICATION ON ENGAGEMENT (COE)

### Period covered by this Communication on Engagement:

From: April 9, 2016 To: April 9, 2018

### Part I. Statement of Continued Support by the Chief Executive or Equivalent

April 9, 2018

To our stakeholders:

*I am pleased to confirm that International Charitable Fund (ICF) «EKOGRAD» reaffirms its support to the United Nations Global Compact and its Ten Principles in the areas of Human Rights, Labour, Environment and Anti-Corruption. This is our Communication on Engagement with the United Nations Global Compact. We welcome feedback on its contents. In this Communication of Engagement, we describe the actions that our organization has taken to support the UN Global Compact and its Principles as suggested for an organization like ours. We also commit to sharing this information with our stakeholders using our primary channels of communication.*

Sincerely yours

Nikolay M. Karavaev

President of ICF «EKOGRAD»

### Part II. Description of Actions

#### Environment protection, ecology

The main task of the International Charitable Fund (ICF) «EKOGRAD» during the period with 2016 for 2018 was attraction of funds from the Russian and foreign investors under defined assets for realization of Projects of the **All-Russian ecological Program of socially-state Partnership «EKOGRAD-RUSSIA»** and **International ecological Program of socially-state Partnership «EKOGRAD-TERRA»** («ECOPLANET» - in all countries).

Realization of the Program was conducted with use of structures «All-Russian Society of Conservancy» (ARSC), «Assemblies of the people of Russia», «The public ecological control of Russia», «Youth Assembly of the people of Russia «WE-RUSSIANS», «National Ecological Fund», «International Ecological Fund» and other public (noncommercial) organizations practically in all subjects of the Russian Federation.

**«All-Russian Society of Conservancy» (ARSC)** is the oldest and largest public organization of Russia. It is founded in 1924. It includes 50 regional, about 800 district and city organizations, 17 thousand legal persons and about 2 million citizens – members and supporters of ARSC, which are incorporated by 20 thousand initial organizations. In 2000-2002 more than 20 public organizations and Funds participated in the Program. ARSC cooperates with organizations of preservation of the environment and movements of foreign countries; since 1960 ARSC is a member of the International Union of preservation of the environment.

The main tasks of the Program are improvement of an ecological situation in cities and settlements of the Russian Federation. Within the framework of the Program «EKOGRAD» realization of the following Subprograms and Projects was provided:

#### 1. The Program «TWO-FLOOR RUSSIA».

1.1. Construction of low-floor ecologically clean housing accommodation in all regions of Russia.

1.2. Construction of new and modernization of old industrial enterprises with use of the newest ecologically clean technologies without waste.

1.3. Creation of an industrial-building complex on production of modern building materials.

- 1.4. Construction of the family sports educational Centres «EKOGRAD-UNIVERSUM» including inexpensive hotel complexes, in each regional city of the Russian Federation.
- 1.5. Construction of new and modernization of old sanatoria, rest houses, boarding houses for children of orphans, invalids and other categories of youth within the framework of the Program «Children of Russia».

## **2. The Program «ECOLOGICAL FORMATION» and «CULTURE».**

- 2.1. Education of spirituality and the harmonious relation to the Nature, transfer of knowledge of the World and the Person - of a human body, about the organization of a healthy way of life, including a healthy food, education of culture of dialogue with world around.

**3. The Program «MEDICINE-XXI»** - the best Russian and foreign techniques of diagnostics (including remote and telediagnosics), preventive maintenance and treatment of diseases.

## **4. The Program «GAMMA»** - processing of secondary resources.

- 4.1. Construction of complexes «GAMMA-FHW» on processing Firm Household Wastes into building materials and items.
- 4.2. Construction of complexes of «GAMMA-TIRE» on processing old automobile tires, transporting tapes and waste products of items of rubber-technical industries into useful ecologically clean production.
- 4.3. Construction of complexes «GAMMA-SILT» on processing silt deposits of clearing structures of cities into building materials and items.
- 4.4. Construction of complexes «GAMMA-SLAG» on processing slag, cindery wastes of thermal power stations, boiler-houses into useful building materials and items.
- 4.5. Construction of complexes «GAMMA-FBW» on processing Firm Building Wastes (break-down of old housing accommodation) into building materials and items.
- 4.6. Construction of complexes «GAMMA-TERA» on re-cultivation of grounds, providing processing of technogenic accumulations, ore terraces, wastes of chemical productions into useful ecologically clean production with the subsequent improvement of the released ground under planting of woods, construction of housing accommodation.

## **5. The Program «CLEAN WATER» and «ECOFORST»** - projects on clearing, preservation and water preparation. Reasonable preservation, processing and restoration of woods.

- 5.1. The Project «Ecology of Baikal - ecology of the Planet».
- 5.2. Potable water - creation of enterprises on production of potable water, special equipment on clearing and preparation of potable water, technical water, and also special installations on desalt of marine water
- 5.3. Creation of enterprises on clearing of waste water with use of new ecological technologies.
- 5.4. Realization of the Project on replacement of out-of-date metal water pipes by plastic ecologically clean durable pipes.
- 5.5. Realization of the Project on clearing of springs and the small rivers on territories of 14 water pools of Russia.
- 5.6. Creation of uniform system of monitoring, cultivation, preservation, processing of woods providing organization of highly effective procuring and timber-processing enterprises, using ecological technologies without waste.
- 5.7. Restoration of security wood zones on coast of the rivers and reservoirs. Development of public monitoring systems and the prevention of fires, monitoring of wood territories.

## **6. The Program «NATIONAL Agrarian and Industrial Complex».**

- 6.1. Creation of highly effective enterprises on cultivation and production, preservation and processing of agricultural production with use of ecologically clean agrotechnical technologies.
- 6.2. Creation of a complex of enterprises on production of new highly effective universal agricultural machinery and equipment.

## **7. The Program «ECOLOGICAL TRANSPORT».**

- 7.1. Development of electric public transport in regions of Russia on the basis of the newest ecological technologies.

## **8. The Program «ECO-POWER».**

- 8.1. Development of Independent Ecological Stations (IES-1, IES-2)

## **9. The Program «AIS-EKOGRAD».**

- 9.1. Creation of a modern social network of small and average business.
- 9.2. Creation of the Analytical Information System (AIS), the System of Improvement of Quality (SIQ), basing on international standards ISO 9001 : 2000 and the System of Advancing Financing (SAF) with use of the newest bank technologies of small effective development of small and average business in all regions of the Russian Federation within the framework of the Program «EKOGRAD-RUSSIA».

Within the limits of **International ecological Program of socially-state Partnership «EKOGRAD-TERRA»** («ECOPLANET») on May 27-29, 2017 in Moscow hosted the First Congress of the Eurasian Peoples' Assembly with more than 1000 delegates

from 62 countries participating in its work. The result of the Congress was the creation of a new international organization – the **International Union of Non-Governmental Organizations "Eurasian Peoples' Assembly"** with headquarters in Moscow. Fund "EKOGRAD" was a participant and one of the founders of this international organization.

At the initiative of Fund "EKOGRAD" in September, 2017 was the **ECOLOGICAL COUNCIL of the «Eurasian Peoples' Assembly»** created, into which representatives of Russia have entered, Czechia, Armenia and Indonesia.

In November, 2017 Fund "EKOGRAD" had been developed and signed **Republican ecological Program "EKOGRAD-INDONESIA"**. Cooperation with Vietnam, Czechia and Egypt prepares. Fund "EKOGRAD" in January, 2018 had been offered the program "Ecological civilization of a planet the Earth" which purpose is creation of **GLOBAL ECological SYstem (GLOBECSY)** on all continents of a planet and creation **«The Uniform Center of Planetary Development «ECOCIVILIZATION»**.

On June, 7-8th, 2018 the Fund together with **«Eurasian Peoples' Assembly»** will spend the International Congress **"Eurasia the XXI-st century: ecology and health"**. On the congress there will be representatives of 80 countries of Eurasia.

International Charitable Fund (ICF) «EKOGRAD» is ready to offer a number of serious Projects for realization in territories of the countries of Europe, Australia, Asia, Latin America and Africa with use of the russian scientific and technical potential. We would be interested in long-term mutually advantageous cooperation with international ecological, financial, technical experts and partners.

### **Part III. Measurement of Outcomes**

Unique ecological Projects after dust processing, water preparation and sewage treatment, manufacture of ecological cements, building of habitation and a social infrastructure are developed and take root. Technologies are patented and can be offered for use in all countries-participants of a network of the United Nations Global Compact.
