

UN Global Compact Communication on Progress

Garud Securities Pvt. Ltd. signed the UN Global Compact in February 2014.
This communication covers the period from April 2017 to April 2018.

Statement of continued support by the Managing Director

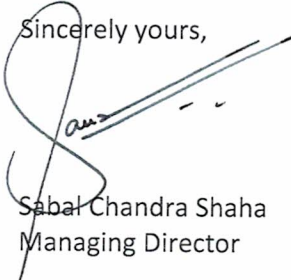

To our stakeholders:

I am pleased to confirm Garud Securities' support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

This is our fourth Communication on Progress in which we describe our actions to begin the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders through our primary channels of communication.

The last year saw all three levels of election taking place and the country poised for political stability. This holds bright future prospect for the economy of the country

Sincerely yours,

Sabal Chandra Shaha
Managing Director

Human Rights Principles

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights

Principle 2: make sure that they are not complicit in human rights abuses.

Assessment, Policy and Goals

As part of our ongoing improvement we have drawn up a comprehensive Human Rights Impact Assessment form which is done partly to satisfy some ISO standards we aim to comply with. We have statements signed by the highest authority of the company stating our commitment to protect human rights in every aspect of our operations. We have started implementing this for our supply chain as well.

Implementation

A grievance/suggestion mechanism is in place through feedback forms, email and other means of communication (for clients) and email/suggestion box for employees and other interested. These are included in the employee handbook and reminded during periodic trainings. The employees are also educated on types of wrongdoing that should be raised.

Measurement of Outcomes

We did not receive a single comment regarding human rights abuses this year.

Labour Principles

Principle 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining

Principle 4: the elimination of all forms of forced and compulsory labour

Principle 5: the effective abolition of child labour

Principle 6: the elimination of discrimination in respect of employment and occupation.

Assessment, Policy and Goals

Garud Securities has a written policy to follow the labour law of the country which is a signatory to ILO conventions. We also do not employ anyone under the age of eighteen. The employees are given the choice of working hours, shift and location thereby creating a comfortable working environment. We have produced more policies at the highest levels of the company to make sure we adhere to all labour related obligations both legal and moral.

Implementation

Garud Securities has been providing employment opportunities to all that apply solely based on their credentials. We do not employ anyone under the age of eighteen and require this from our suppliers as well. We have initiated a plan to include more female staff in our workforce and we have dedicated a

page on the subject in our brochure to highlight our commitment on the subject. We have encouraged our union members to highlight any concern that they may have observed.

Measurement of Outcomes

We have representation of all the major ethnicities in the country represented in our workforce. We have continued our special program whereby we have brought people from remote and backward areas of the country to the capital provided them with the necessary training, accommodation and food and subsequently a job in their area of choosing. We did have a few potential issues brought before us by employees which were all closed out.

Environment Principle

Principle 7: Businesses should support a precautionary approach to environmental challenges.

Principle 8: undertake initiatives to promote greater environmental responsibility.

Principle 9: encourage the development and diffusion of environmentally friendly technologies.

Assessment, Policy and Goals

Being a service provider (human resources) our group's activities have a very low environmental impact. The end of load shedding in the country means 100% of electricity used is clean energy as almost 100% of Nepal's energy is from hydropower. We are aiming to gradually increase electric vehicles in our fleet to replace fossil fuel powered vehicles.

Implementation

We continued our support to a government program that aims to clean up the major river in the capital by contributing considerable manpower and resources to the project. We also replaced 8 petrol powered motorbikes with electric powered bikes and will continue this trend as far as practically possible

Measurement of Outcomes

The senior management is periodically reviewing the results of our actions that have helped in saving the environment. We are looking and emerging technologies and changes in procedures to save on fossil fuel consumption.

Anti-Corruption Principle

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

Assessment, Policy and Goals

Garud Securities has communicated its anti corruption stance through a dedicated anti corruption policy and relevant points printed on employee handbooks. Anti-corruption clause is also incorporated in contracts with our clients.

Implementation

Feedback procedures are in place to ensure any inappropriate conduct is brought to the notice of the management. Anti corruption policy is also made clear in proposals that are sent out to new prospective clients.

Measurement of Outcomes

Garud Securities will not conduct any business activity that has been influenced by any forms of corruption. We are glad to inform that we have not been involved in any corruption related cases to date. There were no corruption related cases in the last year.
