

## Tofuture Oy's COP report to be delayed

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to heavy workload in implementing Tofuture CSM solution as well as training and helping our customers to improve their sustainability data management and reporting. The demand for tools to manage sustainability information seems to be increasing due to enhanced reporting requirements in European Union and the awareness for climate change. Fulfilling customers' needs is our priority and doing so we sponsor the UN Global Compact principles at the same time.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by August 23th 2018.

Sincerely yours

Veli Kalle Tavakka  
CEO, Tofuture Oy
