

Quito, June 2, 2018

Dear colleagues, Global Compact

I hereby inform you that Diners Club of Ecuador has not yet been able to send the Communication on Progress report for 2017, because this year we have migrated to the methodology of standards established by the GRI and this process has required more time. Every year we include the Communication on Progress report in our sustainability report, which is why we depend on the report being completed in order to send it.

As soon as we have the final version we will send it to you.

I appreciate your understanding

Best Regards,

A handwritten signature in blue ink, reading 'Augusta Bustamante P'.
