

June 15, 2018

To our stakeholders:

We notice that the next COP submission to UN Global Compact after a year of posting basic template COP active level.

However, our responsible team for the COP submission are heavily gravitated towards the preparation of audit and tax submission for a number of JV projects before end-June 2018 deadline. We hereby ask an extension period in order to post an advanced COP that we could not hope to finish data collection by the due date. Our active COP will be posted on UN Global Compact website by September 15, 2018.

Sincerely,

Ye Min Aung
Managing Director
