

Rio de Janeiro, June 28, 2018

STATEMENT

As Chief Executive Officer of Furnas Centrais Elétricas S.A., I hereby reaffirm our commitment, signed since 2003, to the principles of the United Nations Global Compact.

One of the strategic projects of our Business and Management Plan (PNG) 2018-2022 concerns the commitment to Agenda 2030.

The 2017 Furnas Sustainability Report, submitted to the Global Compact as Communication on Progress (COP), describes our practices related to the Sustainable Development Objectives (ODS) and the ten principles of human rights, labor, environment and anti-corruption advocated by the Global Compact.

The report also provides information on the main achievements of the Company, considering its natural, social and relationship, human, intellectual, financial and manufactured capitals.

Ricardo Medeiros

CEO
