- **Le BIPE is very strict about respect of work contracts. A dynamic promotion and raise policy is in place, based on individual and collective performance of the staff.**

➤ All personals within Le BIPE are submitted to bi-annual professional assessments, declined in three steps :

- Self-evaluation by each person, describing their contribution to the missions, potential for growth and performance
- The Management Group then holds a meeting during which the performance of each consultant are reviewed
- Individual meetings are then organised, for managers to give all staff a feedback and their performance and potential promotion/raise.

- **Le BIPE has a strong focus on team work, team building and group dynamism.**

The **integration training** is organised to help new employees integrate the group culture and working environment.

The company holds an **annual teambuilding week-end** (generally a ski week-end offered to all employees) to facilitate communication and to enable open discussion and co-working on the company's strategy and business development plan.

Other more casual events are held at regular pace, at least four times during the year (whether parties in the evening such as the Christmas parties) or daily activities such as group cooking to enhance group dynamism.
