Date July 9th 2018  
Subject UNGC: Board of Directors-statement 2017

Dear Mr. Secretary-General,

To all stakeholders,

With this statement we inform you that Koninklijke VolkerWessels N.V. supports the ten principles of the United Nations Global Compact concerning human rights, labour, environment and anti-corruption.

Koninklijke VolkerWessels N.V. has the ambition to set up her activities in such a way that they contribute to the quality of life of people. In order to achieve this, we work together with all our stakeholders. We pay special attention to the end users of the built environment to which we are contributing every day. In executing our activities, our core values safety, sustainability and integrity are leading.

We are aware that we continuously need to take responsibility in relation to people, health and environment, both within our own organisation, and in our projects. In this light, in 2018 we initiated the integration of sustainability into our revolving credit facility, which means we are linking the interest rate to our sustainability performance. This shows VolkerWessels' strong commitment to sustainability and incentivises VolkerWessels to deliver year-on-year improvements.

Our sustainability policy focuses on material use, on promotion and retention of employment, on reduction of greenhouse gasses and on promotion of integrity and safety, within our sphere of influence. In order to build towards a better quality of life, a safe, circular and energy efficient process is a basic precondition for us.

Yours sincerely,  
Board of Directors Koninklijke VolkerWessels N.V.

  
J.A. de Ruiter

  
H.J. van der Kamp
