Dear Mr. Secretary General,

Since 2001, the EDF Group has been a strong supporter of the UN Global Compact and I want, once again, to renew my personal support for this important initiative.

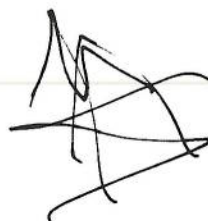

The UN Global Compact, together with the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises provides us with a solid foundation of internationally recognized principles for building a more sustainable business.

We acknowledge that the Communication on Progress (COP) is an important tool of transparency that gives us an opportunity for an internal and external annual evaluation of our achievements. The EDF Group has been reporting at the "Advanced level" since 2012 and commits to continue to reach this level of excellence in the next years.

Moreover, through our six Corporate Social Responsibility Goals encompassing environmental and social issues, the EDF Group contributes to the UN Sustainable Development Goals. They are significant and priority commitments on which the EDF Group will also report each year.

By implementing the ten UN Global Compact Principles and our six Corporate Responsibility Goals, the EDF Group strives to remain an efficient, responsible electricity company that champions low carbon growth.

Sincerely yours.
