**RE: STATEMENT OF CONTINUED SUPPORT**

*To our stakeholders:*

*Pardini & Associates is a leading international corporate law firm in the Republic of Panama, with a tradition of 31 years of experience advising foreign clients and practicing in almost all areas of law.*

*Since its foundation in 1982, we have been interested in the development and/or assistance to social activities for the community benefit.*

*Our company has strengthened over the years our human resources, who have a clear vision of the importance of offering and contributing part of their time, knowledge and resources to those who need additional support to strengthen their quality of life.*

*For 4 years we have been sponsors of the Pro Niños del Darien Foundation, a foundation created to support a community where children require constant support in the areas of education, clothing and food as they have a family nucleus of scarce resources that work to subsist on what little they earn.*

*As a company dedicated to preserving the moral and social values, and finally making a full assessment of how we can contribute consistently to have a better country with better citizens, we have decided that in the coming years to focus our attention on strengthening those values, supporting the labor standards of the Global Compact.*

*As always, we hope to provide all our support as a socially responsible enterprise and law firm, as we have done to date, demonstrating involvement and results through this voluntary initiative.*

*Respectfully,*

**PARDINI & ASOCIADOS**

## **DESCRIPTION OF PRACTICAL ACTIONS 2017-2018:**

*Pardini & Associates has now been signatory of the Global Compact for eight (9) years. In that time, all the staff together with its partners has been proud to have the privilege to be part of the group of companies around the world who compound the Global Compact.*

*Pardini & Associates since its foundation in 1982 has been involved in social works, and at the beginning of our signatory in 2003 to the Global Compact, we adopt certain actions to support the Global Compact, defending principles 5 of Labor Standards, of the ten Principles, such as the prohibition to contract personnel who do not has legal age in our company, and it also has been transmitted to all our personnel to be adopted by them at personal levels, and not only into the firm.*

*100 assorted flavored juices*  
*100 sweet cookies*  
*100 lollipops*  
*100 granolas*  
*100 pears and, 100 apples*

## **MEASUREMENT OF OUTCOMES:**

*As Pardini & Associates is a small law firm, and its projects are small, its outcomes sometimes are difficult to measure, notwithstanding on those years we can observe the following:*

***Regarding the personnel,*** *our staff every year is more interested in this beautiful project, that why they offer their time and resources. This year the 90% of our staff gave part of donation for this activity.*

***Regarding the Association,*** *as we function every year, they are children that do not have parent and live in shelters. We decided to participate in a special day that named Children day and every co-worker gave his donation.*

***Regarding the Organization,*** *our Marketing Department and Human Recourses Department continue working very hard to promoting different values around all the company.*
