

CREATING A SUSTAINABLE FUTURE

2017 Sustainability Report

GOVERNANCE & ETHICAL TRANSPARENCY

Living our values

We developed a webpage, exclusively for suppliers, we included our Integrity Policies such as the Code of Ethics and Conduct and the Anti-corruption Policy

Our main raw material for our "QG5" product is the "Guava Leaf", the supplier of this resource is a community cooperative from Veracruz, with this action we support local production

RESPONSIBLE PRODUCTS

Innovate and develop responsible and high-quality products

We started our first "Industrial Project"

We have come together and built partnerships with banks to possibly finance the industrial project through the international development cooperation with the BID and the World Bank

ACCESS TO HEALTH

Promoting health and well-being

We signed the "GEN CERO" pact against malnutrition in Colombia

Through the **Fundación Genomma Lab.** humanitarian aid and attention is provided in case of emergency. We acted in a solidary way during the 2017 September events

LIVING OUR SUSTAINABILITY MODEL

Genomma Lab.®
Internacional

Our foundation collaborates with institutions such as the INCAN, the Red Cross, and the INPER

ENVIRONMENTAL MANAGEMENT

Make use of natural resources more efficiently

We measured and identified the environmental impact of our administration and operation centers
