## SOROPTIMIST INTERNATIONAL

### Who are Soroptimists?

After the founding of the first Soroptimist Club in Oakland, California, in 1921, the prominent French cosmetic surgeon Dr Suzanne Noël initiated the first Soroptimist International Club in Paris in 1924. She inspired the founding of the first Club in continental Europe as well as many others after that. Dr Noël set an unrivalled record by establishing a dozen clubs around the world, thus widely disseminating the concept of Soroptimism. It was therefore fitting that Suzanne Noël was elected the first President of the European Federation of Soroptimist International in 1930.

Since then, the European Federation, i.e. Soroptimist International of Europe, has grown steadily and now consists of nearly 35,000 members, in more than 1,260 clubs, present in 62 countries.

### Global Voice for Women

Soroptimists are professional women who are engaged in their communities and who work actively on improving the lives of women and girls in these communities. Soroptimists have a global vision of the world and of women's issues. We are in touch with the challenges women face in their local communities on a daily basis and have a deep understanding of their living conditions and their rights.

As Soroptimists, we conceptualize and implement projects to better the lives of women and girls and are ideally positioned to respond to challenges that are global in scope but need to be implemented in accordance with local realities.

We have been advocating for women's and girls' rights at the local, national, and international levels since 1921. We have acted as a 'global voice for women' in different international fora and in the communities we live in.

Today, there are more than 80,000 Soroptimists around the world and nearly 35,000 across Europe, the Middle East and Africa witnessing daily the changes in our societies and working proudly to improve the lives of women and girls.

Our organization, Soroptimist International of Europe, holds special consultative status at the United Nations' ECOSOC and has participatory status at the Council of Europe and the European Women's Lobby. Soroptimist International of Europe exchanges with these institutions and provides them with evidence-based information for the formulation of policies that advance women's issues.

Each year, Soroptimists design, fundraise for, and implement thousands of projects that benefit women and girls in their communities. To the extent that women's needs across the world vary, Soroptimist projects vary as well. That said, all Soroptimist projects share three characteristics:

- They address a local need
- They are conceptualized and implemented locally
- Their main purpose is to bring concrete improvement to the lives of women and girls

Soroptimists work in five key areas of importance to women and girls:

- **Education**

building and refurbishing of schools, provision of school supplies, curriculum development, scholarships and mentoring, continuing education for migrant women, legal literacy training for women, lobbying for equality in education.

- **Economic Empowerment**

vocational training, business skills training, farming skills training, microcredit loans, childcare for job seekers, improved access to resources, lobbying for equality in employment...

- **Eliminating Violence Against Women**

building of shelters, building of protected courtrooms, counselling services, aid to victims of violence, anti-trafficking initiatives, lobbying for the elimination of violence against women...

- **Health**

building and refurbishment of hospitals, provision of medical supplies, nurse/midwife training, tests/screenings, education on reproductive health and rights, lobbying for improved health care...

- **Sustainable Environment**

building and refurbishment of sanitary facilities, sustainable farming initiatives, waste management, greening initiatives, lobbying for environmental sustainability...

The Soroptimist Community Training Centers are symbols of friendship, solidarity, and cooperation. These centers are an integral part in the campaign against illiteracy.

Soroptimists are constantly in search of areas that will enable us to use the centers on a greater scale. These centers offer income generating courses to young women and mothers. The courses offered include: Reading and Writing, Sewing, Home-Economics, Carpet Weaving, Accounting, Foreign Languages, Childcare, Computer Literacy and Health Care.

## BALAT CULTURE HOUSE

Fener Balat, a district which is one of the most important touchstones of our cultural heritage, an area that is protected by UNESCO and EU Project due to its historical and touristic structure, attracts

attention of many people and several institutions with its architectural and social texture. The district where Turkish, Greek, Armenian and Jewish people live together in harmony, carries the breeze of history reflecting the serenity and experience of the centuries gone by on the one hand and the dynamism of our age on the other, has an ever changing face. One such novelties that came along with this change is the “TSKF Balat Culture House” that is opened up on 17th June 2010.

Balat Culture House, which is made up of two adjacent buildings and a small backyard is designed to serve different functions simultaneously. At the ground level, a professional kitchen has been built as a part of the foundational project regarding the building. In this kitchen the food to be served in the cafe in the second floor is prepared and it is also possible to run a cooking course with 20 participants. The entrance level of one of the buildings and the backyard garden serves as a cafe. This space is used by Soroptimists as a meeting ground and the visitors to the district can have a cup of coffee or have lunch in this historical building enjoying its beauty.

The entrance level of the other building is used as managerial section. In the upper level of the building which has the cafe, there is an art gallery. We aim at hosting an exhibition here every month. The upper level of the managerial section is organized as a meeting and education area. In this section, the Soroptimist Clubs organize gatherings and trainings for the women and children of the district are provided.

The building is designed with a double-use. The first use is to provide trainings and services in line with the aims of the Soroptimist clubs, the second use is to do with raising funds to cover the costs of this services and the building and allow the cooking course participants to earn some money using the skills they gained at the course. After this comprehensive project is applied reaches its full force, Soroptimist members will try to make a difference in the cultural, social and economic areas by building a bridge.

Balat Culture House Cooking Atelier was continued in the second year of the project. The goal of Balat Culture House Cooking Atelier is determined as follows: “to teach women and girls with no economic freedom and living in Balat district how to cook good, appropriate and traditional food, therefore to make them conscious and also to contribute to their economic conditions by enabling them to earn money of their own. The course participants received theoretical training for the first three months and then start practical trainings at the professional kitchen. Turkish ravioli is the leading product of our atelier but also jams, pickles, tarhana, cakes and various cookies. The fresh baked/cooked products of the cooking classes are served at the cafe of BCH or as packages at our

sales stand. Besides, they meet and communicate with our Soroptimist sisters and their friends and relatives who either work in the project or visit BCH as well as with people from various

backgrounds such as writers, artists, scientists, doctors which gives them the opportunity to build up their own capacities. This develops them both economically and socially.

This project we applied in Fener Balat is designed to develop the social life in Balat. Balat Culture House aims at giving the women to acquire an occupation and create areas of employment for them.

The instructor- a well-known culinary expert- started teaching the participants 3 basic meals: pickles, jams and “mantı”- traditional Turkish ravioli. However, they additionally learned how to cook other specific dishes as well. Women studied 10 hours per week (2 days a week): 3 hours of theoretical training at the classroom where they learned about the basics of cooking and 7 hours of practical training where they implemented what they learned. The products were tasted by the instructor and were served to our Soroptimist members and they all approved.

In Balat Culture House approximately 50 women are trained each year.

In 2017, the soup days were organized in every week for Balat’s women and children and gave some information to them about healthy nutrition by Soroptimist clubs. A joint painting exhibitions, in

which the members of Turkish Soroptimist clubs who paint exhibited their work took place in Balat Culture House. We organized this activity as a part of 8th March World Women's Day every year. We also opened this exhibition up to our Soroptimist friends all over Europe.

Starting 2016 we invited our clubs outside İstanbul to organize "Kitchen Workshop "together, for example last year with Club Konya, TSKF organized special day; with the cooperation of a famous cook our "Balat women kitchen team "prepared special meals and soroptimists members and non soroptimists from İstanbul and Konya enjoyed the meal. In conclusion; these women are gaining income and experience and they are becoming self confident, by inviting other clubs, Soroptimists achieve more participants ,synergy. Cafe Vodina, being a commercial enterprise enables us to serve these products (local meals, jam, etc. produced by these women) to all the visitors. All activities are shared via facebook and website.

Within the 16 days of actions between 25<sup>th</sup> November (International day for the elimination violence against women) and 10<sup>th</sup> December, the Balat Culture house was lighted up orange color in order to take attention to violence against women and some activities were happened in the scope of this project.

**KIMIM**

Vocational Training and Employment Support Center for Women

**(ETILER SOROPTIMIST CLUB)**

In 2015, Etiler Soroptimist Club dreamed, proposed and launched KIMIM Project (Kadınlar İçin Meslek ve İş Merkezi, Vocational Training and Employment Support Center for Women). KIMIM was established in Balat Culture House with a financial aid of 80,000 Euros provided by ISTKA (Istanbul Development Agency).

The aim of KIMIM is to empower women who never worked before due to lack of required skills and/or education. The goal was to give them the opportunity to close the gap with the help of short-term vocational training programs.

During the first year, three programs were launched, enabling participants to work in different parts of the hospitality sector like Housekeeping, Stewarding and F&B Service. Upon successful completion of a selected course of 90-120 hours, the participants received “on-the-job-training” for two weeks and were hired by different employees through the agency of KIMIM. Trainees were also offered free lunch, coffee breaks and free daycare for their children throughout the course of their trainings. Moreover, KIMIM organized special lectures for the trainees, their family members and

co-workers in order to raise awareness in gender equality.

Among hundreds, 80 women decided to join one of the vocational training programs: 53 of them attended, and 43 of them managed to earn the certificate. Participants of the programs were mostly undereducated women from poor backgrounds in Istanbul. Some of them were from shelters, and 15 of them were Syrian refugees residing nearby. All participants were eager to be successful, gain new skills and start

working.

At the end of the project's first year in September 2016, despite some serious external obstacles, 31 different jobs for 19 women were secured, and 15 women continue to work. All participants have been introduced to “gender issues” as well as receiving coaching in how to tackle issues in their work and family lives.

The most successful group in terms of the highest rate of employment and job permanency were women from centers for violence prevention and social rehabilitation.

With regard to economic and social prospects, club organized Crochet Bags, Accessories and Souvenirs Production Vocational Training Program in the second year of the project. Our instructor was TV celebrity Meltem Acikel, and she taught women know-how and professional skills at Balat

Culture House for 7 weeks. Ten trainees completed the program and earned their certificates. Etiler Soroptimist Club launched an atelier with five successful trainees. Different handbags were designed for different target groups. Designs, patterns and ideas were shared during workshops held on Wednesdays. Handbags produced were sold at different occasions. Orders were taken from companies familiar with this project, and they distributed the products as souvenirs. Thousands of handbags in different types were produced, and 900 of them were sold. Five trainees still earn regular income.

In the third year, trainees and their friends asked for in-depth training courses to secure the unexpectedly high success level of the Atelier. Therefore, Etiler Club organized a series of courses on home textile products and production techniques offered by different instructors. Zeynep Genceolu taught tips about making runner and table mats, OKKA Group shared blanket knitting tips, Meltem Acikel taught recycled-pillow making and BIBAK Group gave training in Amigurumi. In total, 40 women benefited from these vocational training programs.

From the beginning of this project, Etiler Club have collaborated with a series of governmental (Ministry of Family and Social Policies, Ministry of Labour and Social Security, etc.) and non-governmental institutions (ISMEK, ACEV, etc.), Fatih Municipality Career Center and ISKUR (Turkish Employment Agency). Club members have visited 2000 homes and called up more than 1500 women to introduce the project. Etiler Club have produced a great variety of promotional materials and been hosted in a series of TV programs. For the fourth year, Etiler Club are planning to organize a Crocheted Granny-Square Training Program of 6 weeks and then to produce different products in the Atelier. This Vocational Training will again be held in Balat Culture House, starting from January 2019.

## THE SOUND OF SILENCE

### (İÇEL SOROPTIMIST CLUB)

The violence to women by their spouses or families has been increasing in Turkey. According to statistics, one in four women has been a victim of violence and suffers in various ways. As Soroptimists, eliminating violence against women is one of our focus areas.

Icel Soroptimist Club feel that soroptimists should try every way to take people's attention to this matter. Icel Soroptimist club decided to show their reaction against violence by using social media through a short film about all types of violence against women.

Soroptimists contacted a production company and the shooting part of the film was done by professionals. All club members took part in the film, all dressed in black. Soroptimists prepared banners with their messages that want to transfer. To symbolize the silence of the violence of victim women, they wore black duct tapes over their mouths. Each member was holding banners written messages against any kind of violence. At the end of the film, statistics about violence all over the world were given.

This film was released on November 25th - The International Day for the elimination of Violence against Women - through social media.

It was a great success; Soroptimists reached more people than expected by the power of social media; people reacted and shared the film through their accounts and we caught the attention of local press. The film can be watchable by using the link below:

## Description:

The 1<sup>st</sup> phase of our project was about encouraging men to get involved in the efforts to eliminate violence against women and to raise awareness on gender equality. We must have the opposite gender on our side if we want women to achieve a higher social status, to have equal access to education and equal job opportunities as men, and to eliminate violence against women. To be able to do that, we conducted a project to support UNWomen's HeForShe Campaign, which calls for men's involvement on the issue.

First we contacted HeForShe Turkey and asked for their approval for our project. After their enthusiastic confirmation, we designed brochures to inform men about the HeForShe Campaign and our project, inviting them to join us in our battle against violence. We supplied orange scarves in regard to UN's OrangeTheWorld Campaign, and asked men to say no to violence against women on camera, wearing our orange scarves, and sharing their thoughts on gender equality with the world. Some preferred the pre-prepared text we offered them, but most used their own words in creative ways. We filmed 112 men from different socio-economic backgrounds and declared them our Orange Heroes. We also gained 3 corporate heroes: GlaxoSmith&Kline Turkey, Cancer Fighters Association and Trio Vassago HairDesign. We published each film on social media accounts of our Club, Soroptimist Turkey, HeForShe Turkey and tagged our heroes on facebook, twitter and instagram.

Our heroes got 30.000 hits on social media at the end of the first phase. Some got unpleasant comments from their peers, but they were so willing and dedicated that they educated those peers, encouraging them to side with women as well. Both UN's HeForShe & OrangeYourWorld Campaigns and our Orange Heroes Project were widely known and were supported due to our efforts. We gave regular reports to HeForShe Turkey, which were highly appreciated. Also, we heard that our project was being given as a successful example in the trainings of "Things Project," a social-technology activism organization, in conjunction with Bilgi University..

In the second phase of our project we included women as well, following the same steps of the first phase. At the end of the second phase we have reached over 40.000 hits on social media, 375 Orange Heroes and 185 video messages. With the addition of Turkish Union of Soroptimist International and

Soma Zafer Sports Girls Soccer Teams of A & U13, the number of our institutional heroes was raised to six. Also, one of our members created amigurumi Orange Hero Dolls to enhance awareness on the issue. This step was very successful as well. So much so that she was invited to a national TV show to promote the Orange Hero Dolls.

For the third phase of our project we prepared a video collage of our Orange Heroes. We will publish the video on the 25<sup>th</sup> of Nov. 2018, in context with the 16 Days of Activism.

Our project is sustainable, and we intend to continue as long as needed. It is also repeatable by any NGO who wishes to do so. We are extremely proud of our results and we wish for a world freed of violence against women and establish gender equality.

## MARMARA SOROPTİMİST KULÜBÜ SİZLERİ DE DESTEĞE ÇAĞIRIYOR!

- ◆ "Toplumsal cinsiyet eğitimi"ne dair düşüncelerinizi kısa video mesajları olarak oluşturmak, ve HeForShe'yi destekliyorsunuz!
- ◆ Sizin de bir "HeForShe" olmanızı ön ayak olmayı amaçlıyoruz! (HeForShe'ye katılma manevi destekten başka yükümlülük getirmemektedir ve HeForShe Türkiye'nin internet sayfasından kolaylıkla yapılabilir.)

### BİZE DESTEK OLUR MUSUNUZ?

Video mesajlarınızı, **terence** etiketlerimizle çekmek isteriz!

### Neden Terence?

Kadına karşı şiddet sorunu, dünya çapında o kadar büyük bir sorun ki, Birleşmiş Milletler, bu sorunu yalnızca yolda bir kez 25 Kasım'ta değil yıl boyunca gündeminden çıkarmıyor. Bu bağlamda, kadına karşı şiddetin önlenmesi için bir terence de bu sorunun daha "görünbilir" olmasını sağlıyor.

### TURUNCU GİYELİM, KADINA KARŞI ŞİDDETE HAYIR DİYELİM!

### BEN DE "HeForShe"YİM DİYEREK, KADININ TOPLUMDA HAK ETTİĞİ KONUMA ULAŞMASINA DESTEK OLALIM!

Video mesajlarınızda arzu ettiğinizizi dile getirebilirsiniz. Bir size örnek olmasın diye bir de kısa metin hazırladık:

"Merhaba, Ben....."

.....ile ilgileniyorum. (Veya mesajım .....)

Kadın topluma hak ettiği yere gelene, eğitim ve iş olanaklarına erişimde eşit fırsatları sahip olması, ve kadına karşı şiddetin sonlanması için bir erkeklerin de bu çağrısı destek vermesini part.

Kadınlar toplum yarınları toplumdur.  
Ben de HeForShe'yim."

### Cinsiyet Eğitimi İçin Dayanışma Hareketi

### HeForShe Nedir?

HeForShe, yani "Kadınların Erkek", ülkemizde Mustafa V. Koç'un küresel etki liderliğini yaptığı, ve toplumsal cinsiyet eğitimi için özellikle erkeklerin desteğini almayı amaçlayan bir Birleşmiş Milletler Projesidir.

### "KADINSIZ TOPLUM YARINSIZ TOPLUMDUR"

"Ben geliştirmekte olan bir ülkeyi temsil eden tek etki lideri olarak, benzer kültürlerden başka liderleri de bu konuya sahip çıkmaları yönünde cesaretlendirmek istiyorum. Unutmayalım ki, kadınların yeterince eğitilmediği, güçlenmediği, eğitim ve istihdam olanaklarına erişemediği bir dünyada kalkınma da mümkün olmayacaktır."

Mustafa V. Koç

### ANA MESAJLAR

- ◆ Toplumsal cinsiyet eğitimi günümüzün en yaygın ve etkin insan hakları ihlallerinden birisi. Yıllardır süren çalışmalara rağmen, her yaşta kadın ve erkek arasındaki eşitsizlik kabul edilemeyecek bir şekilde tüm dünyada varlığını sürdürüyor.
- ◆ Bir dayanışma hareketi olan HeForShe, her yaşta erkekleri toplumsal cinsiyet eğitiminin sağlanabilmesi için sorumluluğu barmak, sesini çıkarmak ve harekete geçmek üzere savunucuları olmaya çağırıyor.
- ◆ Kadın-erkek eşitsizliği sadece kadınları değil, her yaşta kadın ve erkek, kasacası hepimiz etkileyen bir insan hakları meselesidir. Toplumsal cinsiyet eğitiminin sağlandığı bir toplumda, sosyal, siyasi ve ekonomik alanlarda, hem kadın hem de erkekler, kasacası hepimiz kazançlı çıkacağız. Çünkü kadınların güçlenmesinden, tüm insanlık fayda sağlar. Toplumsal cinsiyet eğitimi sadece kadınları değil, erkekleri de tanımlanmış sosyal roller ve cinsiyet kalıplarından kurtararak özgürleştirir.

### KAMPANYA HAKKINDA

UN Women tarafından geliştirilen HeForShe, her yaşta erkekleri toplumsal cinsiyet eğitimi ve kadın hakları için değişimin savunucuları ve temsilcisi olmaya çağırarak bir dayanışma hareketidir. Kampanya, erkekleri, her yaşta kadınları karşılaştığı eşitsizlikler karşısında seslerini çıkarmaya ve harekete geçmeye teşvik eder.

### KAMPANYANIN HEDEFLERİ

Kampanyanın genel hedefi, kadınlara ve kız çocuklarına karşı her türlü ayrımcılığı ve şiddeti ortadan kaldırmak için erkeklerin alması gereken sorumlulukla ilgili farkındalık yaratmak ve harekete geçmesini sağlamaktır. Kampanyanın diğer hedefleri ise şu şekilde sıralanabilir:

o Erkeklerin toplumsal cinsiyet eğitimi tam desteklerini almak üzere sürdürülebilir ve dönüştürücü programlar geliştirilmesi için UN Women ve diğer Birleşmiş Milletler kuruluşları ve ülke ofislerinin harekete geçmelerini sağlamak.

o Yenide HeForShe kampanya ve etkinliklerinin oluşturulması ve yaygınlaştırılması için kamu kuruluşları, erkeklerin oluşturduğu organizasyonlar, diğer sivil toplum kuruluşları, üniversiteler ve okullar arasında işbirliğini sağlamak.

o Her yaşta kadına uygulanan şiddet ve cinsiyete dayalı ayrımcılığa karşı harekete geçmeleri için insanlara ilham vermek.

o Küresel düzeyde kadınlara uygulanan şiddet ve cinsiyet bazlı ayrımcılığa karşı sessiz kalmayıp harekete geçen erkeklerin, rol model olarak öne çıkarılacağı bir platform yaratmak.

- ◆ Toplumsal cinsiyet eğitimi yolunda bugüne kadar feminist hareket ve hak temelli çalışan kadın örgütleri tarafından, pek çok ülkelerde farklı düzeylerde olmak üzere, çok yol kat edildi. Ancak tüm dünyada cinsiyet temelli ayrımcılık yaygın olarak görülmeye devam ediyor.

- ◆ Kapsayıcı ekonomik büyüme, toplumsal bütünlük ve sosyal adalet, çevresel denge ve yaşamın tüm alanlarında ilerlemenin kaydedilmesi için kadınların güçlenmesi gerektiğini kabul etme ve bunu vurgulama zamanı geldi.

- ◆ Erkeklerin savunucuları ve paydaşları olarak kadın hakları için küresel hareketin bir parçası olması, kadın-erkek eğitimi herkes için eşitlikçi dönüşümlere için önem taşıyor. Bu konu sadece kadınlara ya da erkeklerle ilgili değil; önemli olan insanlığın gelişimi için ortak bir vizyon geliştirmek, toplumsal cinsiyet eğitiminin sağlanması için kadınlara erkekler arasında bir dayanışma hareketi ortaya çıkartmak.

**COLLECT AND RECYCLE TO CHANGE THE WORLD****(MEZITLİ SOROPTIMIST CLUB)**

Interactive presentations on recycling were made, a banner contest was organized, and children were declared "Environmental Hunters" in 25 schools in Mezitli.

The importance of recycling in environmental awareness is indisputable. Mezitli club thought that the most important elements of the sustainability of recycling at home are children. We set out with the idea that conscious children can persuade their parents and even their neighbors to take action.

The issue was discussed with Mezitli Municipality and they ensured to support us. An interactive presentation was prepared with the consultancy of the environmental engineer of the Municipality. "Environmental Hunters" brochures were prepared to be distributed to the students. Conditions and awards for the banner competition were determined. The necessary permits were received from the Directorate of National Education and the dates were determined by consulting with school administration. Interactive presentations were made successfully by our consultant environmental engineer. Our club members attended all of the presentations. Chatting with the students, they distributed the brochures and gave information about the banner competition.
