To our stakeholders at Global Compact Brazilian Network

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to major changes on our board of directors, replacement of key stakeholders and also being the first time we are going to present our country COP to the Global Compact Local Network, demanding extra efforts to precise track data and review major actions in place, as well receive formal approval from Central Team to publish the report.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new Country COP report will be posted on the UN Global Compact website by January 29<sup>th</sup>, 2019 at the latest. Sincerely yours,
