Communication on Engagement statement**Sweden 19th of October 2018**

I am pleased to confirm that Nordenskjold Research Group (NRG) reaffirms its support to the United Nations Global compact and its 10 principles in the area of human rights, labour, environment and anti-corruption. This is our Communication on Engagement with the United Nations Global Compact. We welcome feedback on its contents.

In this Communication of Engagement, we describe the actions that our organisation has taken to support the UN Global Compact and its Principles as suggested for an organisation like ours. We also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours

Zulfiqar Kamal

Chairman

COE

NRG is a Swedish based economic association that aims to promote education through the promotion of sustainable research. NRG is a think tank that serves in good collaborations with students to promote entrepreneurship and give economic possibilities to the youth.

NRG constantly engages with the different stakeholders in course of our activities. Business sector and research institutions are definitely collaborative partners. NRG is member of several networks that help us always be in close cooperation with relevant research projects.

NRG tries to promote education and awareness about basic healthcare in challenged societies and adds to support projects that can elevate life standards and improve life quality.

NRG has in 2018 started new digital initiatives and conducted awareness about healthcare projects – this practice is going to be continued in 2019 as the pilot project turns out to be very successful.

NRG definitely plans to be very active in terms of healthcare projects and continue all the existing engagements.

We are glad to have the opportunity of continued cooperation with the Global Compact.
