Gender Equity

At Landmark Amman Hotel we strive to empower and develop our employees by creating a family friendly business environment.

Diversity and inclusion are embedded within our core values; we believe that if our employees feel contented in the workplace, we are inviting them to bring their whole selves to work which will allow them to reach their full potential, engage and become more innovative and committed. We are aiming to eliminate any obstacles or challenges by adopting and implementing diversity and inclusion strategies throughout the hotel to help make the experience of our female employees more successful.

By providing a free on-site nursery for hotel employees, Daycare by Landmark, we are encouraging more Jordanian women to join the hospitality industry and are assisting our female employees to continue to work and develop in their careers even after having children. The comfortable breastfeeding space at the Daycare, inspires female employees to continue to breastfeed their children and promotes exclusive breastfeeding. We are also encouraging male employees to fulfill their roles as fathers and parents by inviting them to bring their children to work with them, which allows mothers to get back to their careers more quickly.

Our partnership with GIZ EconoWin Program aims to promote the importance of gender diversity and empower women to work and contribute to the Jordanian economy (When Women Work, Economies Win). The new renovation project will open new doors for women to train in areas that are normally male dominated like plumbing, electricity and construction.

We are always working on improving the workspace and have recently executed a number of policies and systems that highlight gender diversity strategies and ensures an inviting environment for female employees. One of the methodologies we are using to increase the number of women in the **organization is the new “Bonus Referral System” which encourages employees to refer possible women candidates from their social networks to open vacancies in the hotel.** The assignment of a focal point of contact for female employees allows them to raise concerns and discuss female sensitive issues freely and comfortably and helps them be a part of the problem solving process.

We have recently adopted a zero tolerance policy to discrimination and harassment that eliminates any possibility of harassment and bias treatment within our work environment; a special compulsory training program was designed on the new discrimination and harassment policy for it to be effective.

The creation of focus group sessions for HODs to raise issues related to the perceptions on the presence of females within the team emphasizes our commitment to support the GIZ project goals.

Scheduling planned on-going series of female meeting sessions to discuss gender diversity issues allows us to continue to develop our environment based on the needs and concerns of our female employees. Applying the equal pay and performance based procedures allows both female and male employees equal opportunities of career advancements.

We have incorporated gender diversity sensitization issues in our performance appraisals and have added them to the criteria of selection of manager of the year. The implemented of flexible working arrangements like the optional **“un-paid 2 Saturdays off system”** gives our employees more flexibility to attend to their social and family commitments.

Research constructed gender sensitization sessions will be conducted by professional consultants after a questionnaire based study will take place which will contribute to providing good working conditions for our female staff.

Through our training opportunities we will be encouraging women to participate in normally male dominated areas like plumbing, electricity and building.

Economic Empowerment

We have a long-term partnership with SEP, the Social Enterprise Project which creates hand-embroidered lifestyle accessories crafted by female refugees from the “Gaza” Jerash camp in Jordan providing them with economic and emotional independence. Our SEP shop on the lobby level sells a range of beautiful products that blend local craftsmanship with contemporary Italian style. Our collaboration enables the hotel to offer an additional product to our guests, inviting them to shop beautiful items and simultaneously impact the lives of refugees with their purchases.

We are proud that each room on the 10th floor displays a piece of wall art crafted by an artist from the camp. Brochures in the rooms tell the story of the individual artist. The communal area on the 10th floor hosts a permanent photography exhibition designed to give viewers an insight into life in the refugee camp. www.sepjordan.com

Equality & Inclusion

We are passionate about being an equal opportunities employer and have partnered with several local non-governmental organizations who support individuals with physical and mental challenges. We are proud to have trained and hired several individuals with challenges throughout our operation.

Wall of Kindness

The Wall of Kindness at Landmark Amman Hotel is the first of its kind in Jordan, encouraging people to donate anonymously. After donations are received, the laundry team makes them as good as new, and ready to be given to those who need them the most.

Environmental Sustainability

Our aquaponics dome, The Green Hub by Landmark, provides healthy farm to table vegetables for the restaurants, as well as raising fish, promoting soilless technology and saving water. The Green Hub welcomes workshops, tours, and education initiatives.

Elsewhere in the hotel, we offer various smoke-free outlets and incorporate recycling systems, photovoltaic solar cells, water saving nozzles, energy saving technology and the use of traditional earth structures.

Skyline Sushi Restaurant

Sushi for a cause, inspired by the ancient Japanese legend of a thousand origami cranes (*Senbazuru*). Our guests are invited to explore the art of origami and for every 100 cranes made in the restaurant, we will make a wish come true.

WFP is also supporting the vulnerable Jordanians and Syrians affected by the economic crises in poverty pockets by introducing cash for training and cash for work support.
