

Communication of Progress : 2019

To our Stakeholders:

Our Commitment to Sustainability.

I am pleased to confirm that Safic-Alcan is committed to work with its partners to create value and grow together in a sustainable way and to reaffirm our support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In my role, as CEO, while visiting offices, customers or principals, I realized that, we, at Safic-Alcan, believe that operating responsibly, in the way we act, innovate and contribute to society, is part of our identity. By joining the UN Global Compact, we are taking an important step to publicly translate our "Vision" into "Action".

As such, during this year, Safic-Alcan has implemented its first Sustainability strategy. We started its deployment worldwide in October 2018 and will monitor through a reporting system, leading to a more detailed report in our next "Communication of Progress".

Throughout this COP, we describe the progress we have made over the past year in support of our Sustainability Strategy and the ten UNGC principles, including the establishment of a new Code of Conduct. As we move forward, we will continue to refine our strategy to create collective impact for all our stakeholders while advancing these principles. We also commit to share this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Philippe Combette
CEO of Safic-Alcan
