

January 22th 2019

Mr. Antonio Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to confirm, that Jutlandia Terminal A/S, still follow the course of promoting the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption.

We actively use any opportunity to communicate and prioritize these principles and enhance the importance of these to partners, 3rd Parties and stakeholders. This embedded as part of our strategies and everyday life.

The ten principles are still part of our Code of conduct program for new employees. Subsuppliers are approved, this by questionnaire and audit; in this process we ask them to read and accept our Code of conduct as well as our HSEQ policy.

We have improved our internal quality system and dedicated a separate link only for CSR. The HSEQ department are in the making of a HSEQ strategy where the "Making Global Goals Local Business", has served as inspiration material. Within the CSR link in the quality system, we have also put a link to inspiration material and highlighted how we, in Jutlandia, in practice work with the ten principles.

We have focus on values and act with respect; We acknowledge the need for continuously search for opportunities to improve our performance. This in order to prevent recession or breaches in any of the four generic areas.

During the previous year, management has continued the line of work of informing about the importance of complying with the principles, as individual as well as our company's image and reputation, of the outside world.

This year we achieved:

Human rights

Close cooperation with dedicated occupational health represent we have focused on ensuring proper PPE and condition for all employees. This also making sure those employees at new facilities has the right conditions, bath facilities and so forth

Labor

Part of our sub-contractor supplier approval procedure (subcontractor, goods and services). Suppliers are subject to verification and successively validation and Audit if necessary. Information and guiding employees according to questions regarding amount of maximum worktime and free time.

Environment

In order to reduce the emission/load of CO₂ and NO_x to the environment, we invested in electric cars and has started the process for optimizing the outdoor area regarding handling and containment of spill.

This to minimize and prevent hazardous impacts related to our activities and to optimize the rate of utilization of the resources (renewable/non-renewable energy resources). We are aware of and acknowledge our responsibility with respect to environment as well as local and national legislation.

Anticorruption

A practical handling of this has been described in the internal Quality System. This is part of our Code of conduct in for proper behavior as part of our business interactions as one of our core values.

Sincerely yours,

Mr. Michael Rühle
General Manager
JUTLANDIA Terminal A/S
