Subject: Communication on Progress 2019, The Medical Export Group BV

Dear Mr. Secretary-General,

Hereby I am pleased to reaffirm The Medical Export Group's support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

We are committed to continuously incorporate the Global Compact and its principles as part of the strategy, culture and day-to-day operations of our company, and to participate in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

Especially the move in November 2018 to our new and state-of-the art office and warehouse has supported and will support us in achieving higher sustainability results on structural level. Furthermore, also in the field of human rights and labour further progress was made last year.

For 2019 we foresee a next move to an even more sustainable operation as the positive effects of the transfer to new premises will become apparent. In addition, next steps in employee development will be taken. Finally, also the implementation of a new ERP system will create beneficial results in a.o. a reduction in the use of paper.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. Since we support public accountability and transparency, we also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Mr. Sander van Woerden
Managing Director
