USA

Vienna February 11<sup>th</sup> 2019

Dear Mr. Secretary General,

I am pleased to confirm the continued support of HUMANA People to People to the ten principles of Global Compact in respect of human rights, labour standards, environment protection and fighting corruption. The world needs your initiative and the common focus from all members carries a tremendous impact potential. We strive to do our best in our daily activities.

Being an Austrian NGO, our organization runs social enterprises. We use the surplus for implementation of development projects together with our partners within "The Federation for Associations connected to the International HUMANA People to People Movement". At the center of all our projects is the human being with his/her talents and abilities. The development programs make it possible for the people involved to develop their capacities and make each individual a responsible and contributing member of the society in which he/she is living.

All our projects are aligned with the SDGs and work according to 13 of the 17 goals. Nationally we work primarily within resources and environment protection. Through collection and re-distribution of used clothes and shoes as well as promoting re-use, we reached CO<sup>2</sup> savings of thousands of tons during the last 2 years and this effort will continue.

Attached is our latest annual report, of 2017, and the latest sustainability report in GRI4 standard 2014-2016.

Sincerely yours

  
Henning Mörch  
Managing Director
