Environmental Principles

Principle 7: Businesses should support a precautionary approach to environmental challenges;

Principle 8: undertake initiatives to promote greater environmental responsibility; and

Principle 9: encourage the development and diffusion of environmentally friendly technologies.

ASSESSMENT, POLICY AND GOALS

Our goal is to influence that all parties in our value chain are operating in an environmentally responsible way. We have set up a code of conduct to make our position clear for our employees and business partners. The code of conduct is also published on our web site. We require our employees and business partners to adhere to our Code of Conduct.

We have evaluated that by working with suppliers and manufacturers who implement and develop environmentally friendly technologies and promote the use of recycled raw materials, we can have the most significant impact on environment. In addition we can improve the environmental effect of the logistical value chain by optimizing transportation.

In addition to reducing the carbon footprint of products, we can have a positive effect on creating healthier working and living environments through choosing to market products with low emissions and non-hazardous composition.

IMPLEMENTATION

All our employees and suppliers have signed the Code of Conduct. We have also signed the Code of Conduct of several business partners and customers. We increase the awareness of our customers and stakeholders of the environmental effect of our products in their total life cycle. We take part in voluntary developments to reduce our direct carbon footprint and waste.

MEASUREMENT OF OUTCOMES

There are no reported or known cases of violation of Environmental principles in our value chain in the period of 1.4.2018 to 31.3.2019.

We have ensured that all our products comply with legislative environmental standards and fulfill a multitude of voluntary standards and certification schemes.

We have continued to increase the share of sales of environmentally sustainable products consisting of recycled raw materials with low emissions. The products are made to last heavy use in commercial and residential settings and thus are supporting a resilient building infrastructure. We have created new services to increase the longevity of ready interiors, eg. by training maintenance service providers and auditing the properties in regular intervals.

We have implemented significant changes to our heating, ventilation and air conditioning technologies to minimize the energy consumption in our building properties. We are using real time sensors to track the use of electricity, water and district heating. We have also carried out a modernization of lighting in large part of our properties to use energy efficient LED lighting, and succeeded to reduce electricity consumption while improving working ergonomics at the same time.

We have taken steps to reduce the waste of product materials in our deliveries by optimizing the production and installation planning. We are member of The Environmental Register of Packaging PYR Ltd using their solutions for recycling of packaging.

We are in partnerships with environmentally certified transportation companies who are using modern vehicles in transportation of our goods. We have increased the share of direct deliveries to constructions sites, minimizing the carbon foot print of last mile deliveries.

We enforce an environmental policy for company cars, enforcing a maximum CO₂ g/km emission threshold.

Anti-Corruption Principles

Principle 10: Businesses should work against corruption in all its forms, including extortion and bribery.

ASSESSMENT, POLICY AND GOALS

We are committed to fair competition and have a policy of zero-tolerance for corruption. All of our employees must avoid any kind of corruptive behavior or anti-competitive agreements with representatives of customers, competitors, business partners or any other parties.

In addition, we have set up a code of conduct to make our position clear for our employees and business partners. The code of conduct is also published on our web site. We require our employees and business partners to adhere to our Code of Conduct.

IMPLEMENTATION
