

April 4th, 2019

Dear UNGC Reporting Team,

We would like to submit a formal request to move our reporting deadline to June 10th moving forward.

The reason for this adjustment is to accommodate for a 6 month report production timeline, commencing each January to cover the previous year. Our project finds itself in a state of rapid growth and development, and in order to allot for proper coverage of the year's developments, which has increased significantly from prior years, we would require a full 6 month production schedule.

Thank you kindly for your consideration.

Sincerely,

Sofia Perazzo
Vice President of Sustainability
