

We report in all transparency on our financial and non-financial performances. Given the amount of information and the expectations of our various stakeholders, we have divided our reporting across different channels:

- The **Sustainability Report** provides a detailed overview of non-financial data at group level for a variety of audience: sustainability experts, investors, employees, business partners, customers and non-profit organisations.

2017

- The **Report to Society** gives a general overview of how KBC assumes its role in society. This report is intended for customers, employees and the broad public.

2018
