Continued support of the Ten Principles of the United Nations Global Compact

I am pleased to confirm that Daher renews its commitment to the Ten Principles of the United Nations Global compact in the areas of Human Rights, Labour, Environment and Anti-corruption. With this communication, we express our intent to progressively implement those principles, into the strategy, culture and day-to-day operations of our company.

Our public annual Communication On Progress (via our Corporate Social Responsibility Report) provides details on our politics and action plans. In 2019, as an Active Member, we extended our report to the four fields.

Daher's founding values (Respect And Confidence In Our Relationships, Creativity And Innovation, Responsibility, Entrepreneurship and Sense Of Movement) are in perfect harmony with the Global Compact principles. Since our first adhesion in 2017, we integrated the principles and the Sustainable Development Goals in our politics.

In 2018, we tried to keep on building a strong relationship with our stakeholders and we would be very pleased to hear from them about our 2019 corporate social responsibility politics.

Faithfully yours,

Didier KAYAT
Chief Executive Officer
