

Paris, 14th of May, 2019

To Our stakeholders,

We recognize that a key requirement for participation in the UN Global Compact is the annual submission and posting of a Communication on Progress (COP) that is comprised of a CEO statement of continued support for the UN Global Compact principles, a description of practical actions put in place within the company to meet and respect them along with their measures, results and expected outcomes.

We are late this year in producing and posting the report due to on going strategic discussions with potential industrial partners.

We hereby ask for an extension period in order to be able to post a COP that properly and accurately describes our organizational efforts and progress in support of the UN Global Compact. Our 2019 COP shall be ready by 28th Juneth, 2019 at the latest.
