

Dear UNGC Stakeholders,

This is Dalia Noureldin, Sustainability Communications Specialist in AAIB.

As you know, today marks the date to which we should submit the CoP report. However, we have a problem in this regard. Now as I'm out of office, I figured out that the version I have isn't the final and I won't be able to access the final one before Monday. So, what do you advise? Should I submit the one I have and then replace or just wait until Monday?
