About Baldha Agro Limited

The main purpose of the corporation is to develop and market chemical free fruits , vegetables and ALOE VERA gel . In Bangladesh its very difficult to find chemical free vegetables , fruits and herbs. These chemicals are very dangerous for human body . We produce directly these products in our land and sale them to the public .

Aloe Gel is very prudent and essential for health . The main reason of popularity of the Aloe Vera derivatives is the perception of natural ingredients is used in the finished product. Aloe powder, gel, vitamin tablets, shampoo and other Aloe cosmetics are being produced from the plant and no other chemicals are being used as ingredients, except some preservatives and artificial perfume.

Our marketing team has been continued to put their efforts to deliver the message to the mass media about the benefits of the products of mother nature and the awareness for environment pollution and the caring and nurture for mother nature .

Goal 13: Take urgent action to combat climate change and its impacts

Targets

- Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
- Integrate climate change measures into national policies, strategies and planning
- Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning
- Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions
- Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries

Actions taken place

- We have continued our 'Save the nature' campaign to create awareness about climate change and its impact, pls check the news and video
- Our team members, board of directors and stake holders have participated in the awareness meetings and we have shared them the policy hand out for Climate change and its impact.

Fish Farm SDG 14 Life below water

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

-

Last year we had launched a fish farm where we produce fresh water chemical free fish . Bangladesh is a country of rivers and pond but due to the environmental pollution the ponds and rivers are dying and the water is getting

Poisoned by the plastics , chemicals and other garbages are thrown there . This littering and water mismanagement has big destructive impact on the life underneath the water . The marine species are suffering and dying because of this pollution .

Actions taken place

- Our fresh firm fishes are not only targeted for profit, introduction of such natural products to the consumers will enhance health consciousness as a whole
- We have established sustainable production and consumption programme we have identified the environmental threat and the awareness to protect the life below water.
