

July 10, 2019

To our stakeholders,

We take very seriously our participation United Nations Global Compact (UNGC) and the annual preparation and posting of a Communication on Progress (COP). It is a vital tool for demonstrating transparency, and is also an important element in our CSR assessment methodology.

As we have experienced rapid growth in our employee base and expanded to several new locations in the past year, EcoVadis faces a steep challenge to maintain high quality reporting of our CSR management system in our business in pace with our growth. Thus, we are experiencing delays in creating, sharing and posting our Communication on Progress COP report this year. We believe that it is of critical importance to present the details of our CSR management system in the greatest possible detail and with full transparency.

We hereby ask for an extension in the submission deadline. This additional time is needed to ensure we thoroughly compile our KPIs and actions.

Our new COP report will be posted on the UN Global Compact website by September 6th, 2019 at the latest.

Thank you for your consideration in this matter.

Yours sincerely,

Pierre-Francois Thaler  
Co-founder and Co-CEO
