

EarthCheck and the Sustainable Development Goals

The EarthCheck Certified program provides our organisation and its management with a centralised and consistent platform for compliance and reporting to a number of sector based international standards including the Global Sustainable Tourism Council (GSTC) criteria, ISO14001, ISO50001, ISO26000, ISO9001, ISO13811, ISO14064, the Intergovernmental Panel for Climate Change (IPCC) Guidelines for National Greenhouse Gas Inventories, the World Business Council for Sustainable Development (WBCSD) Greenhouse Gas Protocol, SDG's, the GRI and the CDP.

The United Nations (UNs) Sustainable Development Goals (SDGs) aim to encourage all countries to mobilise efforts to end all forms of poverty, fight inequalities and tackle climate change, while ensuring that no one is left behind. As a company, EarthCheck walks the talk on sustainability and also participates in the EarthCheck Certified program. As part of this years COP, we have mapped how our Certification aligns to the 17 SDGs to encourage environmental, social and cultural best practices.

EarthCheck Certified focuses on 10 Key Performance Areas (KPA) which cover social, cultural and environmental sustainability (Founded initially on Agenda 21). Every KPA fits within one or more SDG, showing that EarthCheck's holistic approach to certification helps achieve the UN's SDGs.

	GHG emissions	Energy Efficiency, Conservation & Management	Management of Freshwater Resources	Ecosystem Conservation & management	Social & Cultural Management	Land Use Planning and Management	Air quality protection	Wastewater management	Solid Waste Management	Environmentally harmful substances
