

# Global Sourcing and Procurement Policy

POL-COR-021-Sourcing & Procurement-Rev.0 - May 2018

The goal of TechnipFMC is to be recognized as a leader in Oil & Gas industry.

Global Sourcing and Procurement is committed to our Customer's success by providing a competitive advantage through leverage, value creation, and strategic supplier management ensuring safety, quality, on-time delivery and cost performance.

We will achieve this goal by:

- > Developing the supply chain able to sustain the business in the long term, and delivering consistent global performance in all aspects of Safety, Quality, Ethics, Delivery and Cost;
- > Operating Sourcing and Procurement activities in compliance with TechnipFMC Core Values and Foundational Beliefs;
- > Conducting Sourcing and Procurement activities with confidentiality and information protection in relation to any stakeholders.

We are dedicated to provide and support the growth of Global Sourcing and Procurement core competency with a rigorous and dynamic work process to meet the current and future TechnipFMC business growth and needs.

Compliance with this Policy is the responsibility of all Management, employees and contracted personnel and enabled through visible commitment of management.
