3850-184 ALBERGARIA-A-VELHA

PORTUGAL

05/09/2019

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to changes taking place in our organization. Due to the increasing market demand, these past few months, and in order to provide the factory with the production capacity needed to meet these demands, we have installed new machines, profoundly changed the factory layout, we are computerizing the factory shop-floor, we are hiring more employees and we are committed to improving the work-stations conditions.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 4 December 2019 at the latest.

Sincerely yours,

O2A
