Our organization is an active fighter for human rights. At events we refer directly to the documents of the United Nations in the field of protection of human rights. We provide advice and assistance in the investigation of criminal cases for the dead children, advise the parents, in cases of involvement of state structures in private and personal life. During this period, we helped with those consultations and preparation of documents for the dead children in 63 cases. In cases of interference in the private lives of citizens, we have participated in resolving more than the 122 incidents.

Here are the most striking examples of our work in the field of protection of human rights (a detailed report by years on our site: http://62ru.ru/%D0%BE%D1%82%D1%87%D0%B5%D1%82.html):

In October of 2018 we asked the school psychologist stating that seventeen-year-old schoolboy in Ryazan expresses the intention to die, and there is self-damaging behavior, the child cut his throat, and the school administration tries to hide this fact, accusing the parents. With our timely intervention the child was given psychiatric help. We helped the mother to write a letter to the investigation Committee. We got in touch with doctors of child psychiatry, organized the provision of child care. Teachers began to pursue a school principal to demand that she quit. We consulted the teacher, helped to prepare an appeal to the Prosecutor's office Supervisory Department for the observance of labor legislation. We appealed to the Ministry of education of the Ryazan region, the Commissioner for human rights in Ryazan region. We were invited to a meeting of all principals of the region where we talked about the danger of failure of timely action. At our insistence, the school conducted was the conversation about the inadmissibility of persecution of a teacher for her honesty. We turned to the media, drew attention to this situation. The result of our work: the child is alive and healthy, the parents of the child received the necessary assistance and advice, the teacher is, he is not prevented from carrying out his activities, the harassment and the bullying stopped. https://progorod62.ru/news/12790
