The dead body of cow	Burning the body	Being ready for next	What we could save if use it properly

There is no mistaking it— tobacco & drug abuse is a planet wide epidemic and India is not isolated. Studies showed that if an individual makes it to 21 years of age without experimenting with drugs, they are highly unlikely to do so. What we need to reach the teen-agers prior then the peer group influence them for testing “the magic substances to get high” or the drug peddlers show them the lure of earning easy money by use and supply. Our broad target anyone and everyone in Delhi street, slums, RWAs, any programs and gatherings. We plan to reach all schools of Delhi. We are already the part of “Project Nayi Udaan” a Government of Delhi initiative. With collaboration of GUIDE STAR INDIA on “Giving Tuesday, India” program in 2017, 1500 students benefited from our drug awareness campaign.

Our up gradation & main streaming programs in Madrasi Colony, Jal Vihar, New Delhi for education, counseling, health awareness and cleanliness etc are ongoing.
