CEO STATEMENT

As Managing Director of Weilbach A/S, I would like to express the company's continued support and commitment to the UN Global Compact. As a small company our ability to influence global society is limited, but by joining with other companies in this initiative we feel that a significant impact can be achieved.

By renewing our commitment to the UN Global Compact, we pledge to incorporate the ten principles within the areas of Human Rights, Labour, the Environment and Anti-corruption, into our business practices. In addition, we will collaborate with our customers, suppliers, business partners, subcontractors and other stakeholders to promote the UN Global Compact, and address potential issues in our sphere of influence.

Sincerely
