**ADJUSTMENT REQUEST COMMUNICATION ON ENGAGEMENT (COE)**

*Burgas, 15 November 2019*

*Dear Sir or Madame,*

We would like to align our internal reporting on the engagement cycle with the Communication on Engagement (COE) deadline of the Global Compact. We hereby request our COE deadline to be adjusted to the 30<sup>th</sup> June 2020.

VIA PONTICA FOUNDATION has a mission to offset the adverse effects of the human activities by a change of environment in the direction of the restoration of the vulnerable ecosystems and active steps to restore the relationship between people and nature. The efforts of the Foundation are aimed mainly towards the conservation and restoration of ecosystems in the wetlands.

VIA PONTICA FOUNDATION is engaged:

- to monitor fauna and flora species;
- to maintain and where possible improve the conservation status of all bird species;
- to conserve the sites and habitats important for birds and other biodiversity;
- to realize biodiversity and conservation education;
- to unleash the potential of this wetland for the ornithological and cognitive tourism;

- to sustain the vital ecological systems that underpin human livelihoods and enrich the quality of people's lives.

VIA PONTICA FOUNDATION has a scientific approach in collecting and analysing of the data, which it uses to work with the government, local authorities and companies to make conservation measures and projects more effective and to reach a world where nature and people live in greater harmony, more equitably and sustainably.

The work done at VIA PONTICA FOUNDATION covers the spectrum of environmental topics and includes the integration of environmentally related issues into other political spheres.
