To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global

Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to outstanding work we are carrying out to advance sustainable goal. We are working on two projects to address the provision of water to communities Cameroon and another project to transform the bottled water supply chain to reduce plastic and make drinking on the Go more sustainable. As Technical Director I will be travelling to monitor progress on the project in Cameroon in December 2019 and I wish to include these developments within our comprehensive progress report.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact.

Our new COP report will be posted on the UN Global Compact website by 20 February 2020 at the latest.

Sincerely yours,

Takudzwa Kufa

Technical Director
