

**Period covered by this Communication on Engagement**

**From:** 01/11/2017 **To:** 1st of January 2020

**Part I. Statement of Continued Support by the Chief Executive or Equivalent**

December the 5th, 2019

To our stakeholders:

I am pleased to confirm that Carma Danışmanlık ve Ticaret Limited Şirketi ("C@ma") reaffirms its support to the United Nations Global Compact and its Ten Principles in the areas of Human Rights, Labour, Environment and Anti-Corruption. This is our Communication on Engagement with the United Nations Global Compact. We welcome feedback on its contents.

In this Communication of Engagement, we describe the actions that our organization has taken to support the UN Global Compact and its Principles as suggested for an organization like ours.

We also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Sandrine Ramboux

C@rma Founder and representative

## Part II. Description of Actions

Please use the box below to describe the actions your organization has taken in support of the Global Compact. It is strongly recommended that the actions taken are related to one or more of the specific activities suggested. Please refer to the complete list of suggested activities for your type of organization found here.

As C@rma, we have started really looking at the Sustainable Development Goals since 2017.

- C@rma is part of the [Global Pro Bono network](#) which is one of the signatories of the **Impact2030 initiative**, aiming at promoting Pro Bono to support the SDG
- We have participated in a couple of initiatives led by the **Global Compact Turkish Local network**
- One of our activities is to gather together corporate professionals once every quarter and feature 6 Turkish Civil Organisations. That enables them to understand better the ecosystem of civil society in Turkey and to create dialogue between these two actors of the society. **In March 2018**, we featured UN Global Compact Turkiye, represented by xxx. She explained the Sustainable Development Goals and the role of UNGC to a crowd of 20-50 participants participants.

- Another activity we have is to gather 20-30 senior executives of large companies (Board members, CEO) twice a year for an exclusive breakfast. We feature one very large NGO and one corporate firm explaining their Corporate Social Responsibility. **In May 2018**, Mustafa Seçkin, at that time chairman of UN Global Compact in Turkey, came to explain the Sustainable Development Goals and the role of UN Global Compact to around 30 CEO and Board members. They were very interested and some of them were not aware of the SD goals.

- In Jan 2019, Carma received funding under the EU Facility for Refugees in Turkey to support 50 disadvantaged women (Turkish and Syrian) to set up and run successfully a cooperative in the food sector in Istanbul. The cooperative will provide innovative, healthy and affordable food products and meals, produced sustainably while practicing social cooperative economics with and for women. This is a clear example of our support to SDG 8 decent work and economic growth.
- In July 2019, we (EKIP team) were one of the 20 initiatives that were entitled to participate in the three days Imece Support Program Bootcamp, which was the 3rd Support Program organized by imece within the scope of Reducing Inequalities. [Imece](#), is a social innovation platform which brings people and institutions which lead the change together by generating innovative and sustainable solutions for social, ecological and cultural matters with the right resources. Their main focus was on SDG.

- We encouraged the Turkish Company Bebemoss (Sector 7 - Iza Ersahin) to register for the UN Global Compact. Since then, she has also regularly participated in activities from the network.

**Plan for 2020**

- Issue our activity report 2020 taking into account the SDG and our membership and support to the goals of UNGC
- Maybe attend the June conference in New York
- Attend more frequently the workgroup of the UN Global Compact Türkiye
- Sandrine, founder of Carma, is now part of the Global Diplomacy Labs. The summit of that network organization will be in May and will focus on the SDG 17

### **Part III. Measurement of Outcomes**

Please use the box below to include the most relevant qualitative and/or quantitative indicators to measure the outcome of the activities described in Part II above.

At this stage, we cannot really measure our outcomes because we did not take these metrics into consideration when we started.

From now on, we will measure:

- Number of activities related to UN Global compact where we attended
- Number of activities related to UN Global compact where we promoted the principles
- Number of partnerships with corporate firms with a dedicated focus on promoting the principles as well as the SDG.
