

Tromsø, 7th of January 2020

To our stakeholders

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

Over the past 3 months, Drytech has spent extensive amounts of time moving our manufacturing plant, including administration into our all new factory building. We are late in creating, sharing and posting our COP report due to an unforeseen workload related to this. This came parallel to a busy period negotiating a contract with our national Defence Logistics agency as a customer.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 15th of February at the latest.

Sincerely yours

Jan Trondsen
