

## **COP-report 2019 by Learnways AB**

**Period covered: 1 January 2019 – 31 December 2019**

### CEO statement of continued support

To our stakeholders:

I am pleased to confirm that Learnways reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

Jonas Wååg, CEO of Learnways AB

### Description of Actions in each focus area

- **Human Rights**

Actions: We have internal policies in place to ensure that we demand that our subcontractors respect human rights in accordance to the GC 10 principles.

Measurement of outcome:

All new subcontractors must comply with the demands.

- **Labour**

Actions: Our employee survey consists of a wide array of issues related to occupational health. We have this year had a specific focus on organisational and social well being at work.

Measurement of outcome:

An organisational change has been made moving certain decisions closer to the individuals so they define items of potential improvements in their own group as well as act on these improvements. The eNPS and engagement score has increased since last year

- **Environment**

Actions: We have continued to strengthen our policy on recycling and collection of waste generated by the office. The electric consumption comes from renewable energy, we have reduced the number of flights and we have also changed our policy for Co2-compensation.

Measurement of outcome:

We now Co2 compensate for the entire company on a yearly basis and contribute to climate protection. The contribution flows into Myclimate protection projects in developing and emerging countries.

During 2019 we have limited our purchase of technical equipment and focused on re-used equipment to all new employees. This resulted in zero purchase of new computers and smartphones during 2019.

- **Anti-Corruption**

Actions: The principles set out in our policies remain.

Measurement of outcome:

No reported cases.

- **Sustainability**

Actions: We have increased our focus on sustainability by further selecting client projects relating to raising awareness and knowledge within the fields of sustainability equality and human rights.

Measurement of outcome:

A majority of our client projects are related to sustainability of equality related issues.
