

Paris La Défense, the 08th January

Communication of Progress: 2020

To our Stakeholders,

I am pleased to confirm that Safic-Alcan reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-Corruption.

In this First Sustainability Report, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations.

One of our Key Actions is the addition of a full time Global Environment, Social & Governance (ESG) Manager in June 2019 to support our Strategy and develop the implementation of the ten principles and the Sustainable Development Goals.

Our First Sustainability report is focusing on the company's commitment to enhance the long lasting, the *Durable Link*, connecting both principals and customers together to understand what consumers need and how we, together, can implement sustainable innovation in the marketplace by taking into consideration our environment and social impacts.

Throughout this report, we describe the progress we have made over the past year in support of our commitment of the UNGC and its SDGs. We also commit to sharing this information with our stakeholders using our primary channels of communication

Philippe Combette
